EMBARGOED UNTIL 11.00 A.M. 12 SEPTEMBER 1996

## DWELLING UNIT COMMENCEMENTS REPORTED BY APPROVING AUTHORITIES SOUTH AUSTRALIA, JUNE 1996

### MAIN FEATURES

- In June 1996 there were 359 new dwelling units reported as commenced in South Australia. Of these, 332 were private sector houses and 23 were in private sector other residential buildings.
- The Adelaide Statistical Division (ASD) accounted for 240 of the new dwelling units commenced during June, with 119 reported in the rest of the State.
- The areas that reported the most private sector house commencements within the ASD were Noarlunga (34), Hindmarsh and Woodville (33), Munno Para (23), Enfield (20), Happy Valley (18), Salisbury (14), with Campbelltown and Marion councils accounting for 13 each.
- Outside the ASD, the regions with the most private sector house commencements were Mount Gambier and Victor Harbor, both with 11.
- The total number of dwelling unit commencements reported by authorities during 1995-96 was 5,844 which was a fall of 39.0% on the 1994-95 total of 9,576. The number of private sector houses reported as commenced also decreased from 7,739 in 1994-95 to 4,686 in 1995-96.

### EXPLANATORY NOTES

#### Introduction

This publication contains monthly details of the number of new dwelling units reported by approving authorities as having commenced. Data for selected statistical local areas are included.

#### Scope and coverage

2. The statistics were compiled from monthly reports, provided by local and other government authorities, of commencements of new houses and new other residential buildings for which:

- (a) building permits were issued by local government or other government authorities in areas subject to building control by those authorities; and
- (b) contracts were let or day labour work was authorised by Commonwealth, State, semi-government and local government authorities.

Major dwelling unit commencements in areas not subject to the normal administrative approval processes (e.g. buildings on remote mine sites) are also included.

3. The number of dwelling units created by alterations and additions to existing buildings and through the construction of new non-residential buildings is not included.

#### Comparability of statistics

4. Because of the difference in data sources, collection methodologies and timing of notification of commencements care should be exercised in comparing quarterly data derived from monthly dwelling unit commencement statistics with the quarterly dwelling unit commencement statistics from the Building Activity Survey.

#### Definitions

5. A *dwelling unit* is defined as a self-contained suite of rooms, including cooking and bathing facilities and intended for long term residential use. Units (whether self-contained or not) within buildings offering institutional care, such as hospitals, or temporary accommodation e.g. motels, hostels and holiday apartments, are not defined as dwelling units.

6. A *residential building* is defined as a building predominantly consisting of one or more dwelling units. Residential buildings can be either *houses* or *other residential buildings* as follows:

- (a) A *house* is defined as a detached building predominantly used for long term residential purposes and consisting of only one dwelling unit. Thus, detached 'granny flats' and detached dwelling units (such as caretakers' residences) associated with non-residential buildings are defined as houses for the purpose of these statistics.

#### INQUIRIES

- for more information about statistics in this publication and the availability of related unpublished statistics, contact Merv Leaker on Adelaide (08) 8237 7590 or any ABS State Office.
- for information about other ABS statistics and services please contact Information Services on Adelaide (08) 8237 7100, call at 55 Currie Street, Adelaide, or write to Information Services, ABS, GPO Box 2272, Adelaide SA 5001.

- (b) An *other residential building* is defined as a building which is predominantly used for long term residential purposes and which contains (or has attached to it) more than one dwelling unit (e.g. includes townhouses, duplexes, apartment buildings etc.).

7. *Commencements.* For the purposes of this statistical series, a dwelling unit is regarded as being commenced on the date when:

- (a) the residential building is first inspected by a building inspector or surveyor, whether the work is passed or not. In general, the first inspection is undertaken at the foundations or footings stage of construction; or
- (b) the residential building is determined as commenced by a building inspector or surveyor.

8. *Ownership of a building* is classified as either Public Sector or Private Sector according to the sector of the intended owner of the completed building as evident at the time of approval. Residential buildings being constructed by private sector builders under government housing authority schemes whereby the authority has contracted, or intends to contract, to purchase the buildings on or before completion, are classified as public sector.

#### **Australian Standard Geographical Classification (ASGC)**

9. Area statistics are now being classified to the *Australian Standard Geographical Classification, Edition 2.5* (1216.0) and ASGC terminology has been adopted in the presentation of building statistics.

#### **Unpublished data**

10. The ABS can also make available certain dwelling unit commencement data which are not published. Where it is not practicable to provide the required information by telephone, data can be provided in the following forms: microfiche, photocopy, computer printout and clerically extracted tabulation. A charge may be made for providing unpublished information in these forms.

#### **Related publications**

11. Other ABS publications which may be of interest include:

*Building Approvals, Australia* (8731.0) – issued monthly

*Building Approvals, South Australia* (8731.4) – issued monthly

*Building Activity, Australia: Dwelling Unit Commencements, Preliminary* (8750.0) – issued quarterly

*Building Activity, South Australia* (8752.4) – issued quarterly

12. Current publications produced by the ABS are listed in the *Catalogue of Publications and Products, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Release Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Release Advice are available from any ABS office.

#### **Symbols and other usages**
