SUMMARY OF FINDINGS

UPDATED SERIES

Series updated since the January 1998 issue are: labour force; housing finance; wage and salary earners; industrial disputes; housing and construction; retail turnover; motor vehicle registrations; selected retail prices and the consumer price index. A feature article on Weekly Earnings of Employees in the ACT is included on pages 8 and 9.

NOTABLE MOVEMENTS

- Labour force The unemployment rate for the ACT fell by 0.1 percentage points from December 1997 to a level of 8.1% after peaking at 8.3% in October–November. Trend employment decreased marginally (down 0.4% to 153,500 persons) in January 1998 with the ACT recording its seventh consecutive month of decline. The number of full time employed decreased proportionally more during January (down by 1,100 or 0.9%) and the participation rate fell from 71.3% to 70.9%. Nationally, trend employment grew slightly (0.2%) while the trend unemployment fell marginally, from 8.2% to 8.1%.
- Housing finance The trend number of dwelling units financed (including refinancing) in the ACT during December 1997 increased to 748 dwellings, a rise of 0.4%. The trend estimate for the value of commitments in the ACT was \$85.3 million, an increase of 1.8% on the previous month. This is the sixth consecutive monthly increase. Refinancing of existing dwellings comprised 22.4% of the total number of dwelling units financed in December 1997, which was up 4.9 percentage points on the previous month. Nationally, the trend number of dwelling units financed (including refinancing) during December 1997 remained steady and the trend estimate for the value of commitments increased by 0.8%.
- Wage and salary earners The trend number of wage and salary earners reported by Government agencies and businesses located in the ACT fell 1.3% (or 1,800 persons) to 140,000 in the period May 1997 to August 1997. This compares to a national growth rate of 0.4% (or 29,600 persons). The proportion of private sector wage and salary earners in the ACT now stands at 51%.
- Industrial disputes For the 12 months ended October 1997 there were 21 working days lost per thousand employees in the ACT, compared to a figure of 72 days nationally. This was the same figure as the previous month in the ACT, while nationally it was an increase of 10.8%.

Housing and construction The trend number of dwelling units approved in the ACT increased by 9.6% to 149 dwelling units in December 1997, the fifth consecutive monthly increase. Nationally the total number of dwelling units approved increased by 1.9% in December 1997. The trend number of dwelling units approved in Australia has increased for each of the last six months.

The value of non-residential building approvals in the ACT was \$42.8 million in December 1997, an increase of \$16.4 million (or 62.1%) from the previous month and \$26.3 million (159.4%) higher than December 1996. Nationally, the value of non-residential building approvals increased by 3.7% from the previous month and was 6.3% higher than December 1996.

Retail turnover The trend estimate for retail turnover in the ACT for December 1997 was \$214.9 million, up 0.3% on the previous month's figure and up 5.2% on twelve months ago. The monthly growth figure was the highest of any of the States or Territories. The national trend retail turnover recorded an increase of 0.1% on the previous month and 4.7% on a year ago.

Motor vehicle registrations The trend estimate for ACT new motor vehicle registrations in December 1997 was 1,521, up 4.0% on the previous month, and up 71.5% on December 1996. The series has now recorded fourteen consecutive months of increase. Nationally, the trend for total new registrations in December 1997 recorded a 1.1% increase, the fifteenth consecutive monthly increase.

Consumer price index The ACT experienced no change for the All Groups CPI in the December quarter 1997. This compared to a national rise of 0.3%. The ACT annual CPI rate to December quarter 1997 recorded a negative figure of 1.3%, the largest decrease for any of the States or Territories while the annual CPI for the weighted average of the eight capital cities was minus 0.2%.

(a) For the period July to December 1996, 165 dwelling units and total building work of \$40.5 million (16%) had been incorrectly omitted from data reported to ABS. All series for the ACT have been revised from July 1996. As further information is received and analysed, the series prior to that are likely to be revised. A trend break has been included in the graph.

POPULATION GROWTH

WEEKLY EARNINGS OF EMPLOYEES IN THE ACT

Of the ACT's 140,074 employees in August 1997, 103,153 (73.6%) were full-time employees in their main job, compared to 73.2% in August 1995. Some 84.8% (62,476) of male and 61.3% (40,677) of female employees were full-time employees.

The mean weekly earnings for full-time employees in the ACT rose from \$724 in August 1995 to \$812 in August 1997 (up 12.5%) which was the highest of all States and Territories, while mean weekly earnings for part-time employees rose from \$261 to \$271 (up 3.8%). Nationally, the figures for full-time employees were \$630 in 1995 and \$702 in 1997 (up 11.4%) and for part-time employees, \$236 and \$261 (up 10.6%), respectively.

Male mean weekly earnings (for both full and part-time employees) in the ACT grew from \$701 in August 1995 to \$781 in August 1997 (up 11.4%) and female mean weekly earnings grew from \$492 to \$546 (up 11.0%). For Australia as a whole, male mean weekly earnings rose from \$620 in 1995 to \$685 in 1997 (up 10.5%) while female mean weekly earnings rose from \$416 to \$451 (up 8.4%).

There was a decrease of 2.0% (down 1,343 persons to 66,339) in the number of public sector employees in the two years ending August 1997, while the number of private sector employees rose slightly by 0.2% (up 153 to 73,735). For Australia, the number of public sector employees fell by 8% while the number of private sector employees rose by 4% in the same period.

Public sector employees in the ACT had higher mean weekly earnings than employees in the private sector for both full-time (\$852 compared to \$756) and part-time work (\$403 compared to \$240). In the two years to August 1997 public sector mean weekly earnings for full-time and part-time employees increased at lower rates to those in the private sector, for full-time employees the growth rate was 8.0% for the public sector and 17.9% for the private sector while for part-time employees the figures were 3.3% and 14.3%, respectively.

The majority of full-time employees were in permanent employment in August 1997 (93%) while the majority of part-time employees were in casual employment (66%). The 95,000 permanent employees in the ACT actually had lower mean weekly earnings than the 7,200 casual employees in full-time work (\$810 compared to \$847) which was in contrast to the figures for Australia which showed permanent full-time employees earning more than casuals (\$713 compared to \$613). The 12,400 permanent part-time employees in the ACT had higher mean weekly earnings than the 24,500 casual part-time employees (\$385 compared to \$213), which follows the national trend.

Full-time employees in the Property and Business services sector recorded the highest mean weekly earnings in their main job (\$947), followed by Transport and storage (\$912). In Australia, the highest earnings were recorded in Mining (\$1,136) and Electricity, gas and water supply (\$836). The lowest mean weekly earnings for ACT full-time

employees were found in the Retail Trade sector (\$558) followed by Accommodation, cafes and restaurants (\$569). For Australia, the lowest were in Agriculture, forestry and fishing (\$488) and Accommodation, cafes and restaurants (\$527).

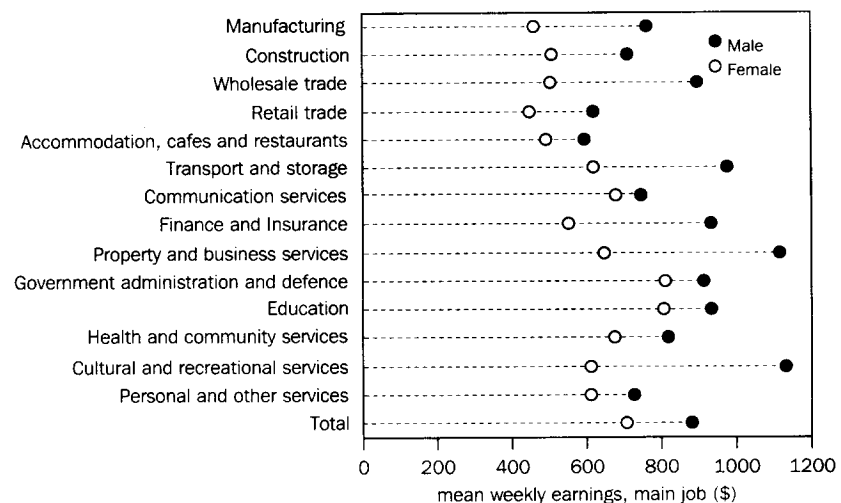

The highest mean weekly earnings for full-time employees were recorded by Managers and administrators (\$1,187) and Professionals (\$969), while for part-time employees, Professionals were the highest (\$457) followed by Managers and administrators (\$401). The lowest mean weekly earnings for both full-time and part-time employees were recorded by Labourers and related workers (\$535 by full-time employees and \$197 by part time employees), and Elementary clerical, sales and service workers (\$583 and \$201).

In August 1997, 98.4% of the full-time employees in the ACT received one or more standard employment benefits in their main job — 96.4% received superannuation, 91.9% received sick leave, 92.4% received holiday leave and 83.6% received long service leave. In comparison 75.6% of the part-time employees in the ACT received one or more standard employment benefits. The figures were similar to those shown for Australia as a whole.

In August 1997, 30.4% (42,518) of ACT employees were members of a trade union, a fall of 3 percentage points from August 1995. For Australia as a whole, 30% of employees were members of a union in August 1997, which was 2 percentage points lower than two years previously. The number of ACT full-time employees who reported that they were a member of a trade union fell from 37.3% (38,842) in August 1995, to 32.8% (33,858) in August 1997 while part-time employees fell from 22.6% (8,620) to 16.8% (6,192).

The proportion of public sector employees who were members of a union (39.0%) was greater than the number of private sector employees who reported that they were members of a trade union (22.5%). By industry sector, trade union membership was highest in Communication services (62%), Transport and storage (54%) and Education (51%).
