APPENDIX 5 DATA ITEM LIST

···

DATA ITEM LIST

Below is a comprehensive list of data items from the 2003 SDAC that are available for use in statistical tabulations. Data items are grouped into broad topics for ease of use. Each data item has a label, a population, the SASName and the available categories. Data items which allow more than one response are indicated by the term 'multiple response' in the label. This data item list can be used to determine what specific information is available on each topic.
