EXPLANATORY NOTES

INTRODUCTION

1 This data service contains data for Western Australia from the ABS quarterly Survey of Tourist Accommodation (STA). The STA is a mailout collection that completely enumerates all in-scope accommodation establishments. Survey results for all States and Territories and Australia are published in *Tourist Accommodation, Australia* (Cat. no. 8635.0)

2 From the March quarter 1998, the scope and collection strategy for the STA was changed to include only significant accommodation establishments (these are defined below).

SCOPE

3 On a quarterly basis, the STA includes hotels, motels, guest houses and serviced apartments with 15 or more rooms or units.

4 Every third year beginning with 2000, the STA expands to also include:

- holiday flats, units and houses of letting entities with 15 or more rooms or units;
- caravan parks with 40 or more powered sites;
- visitor hostels with 25 or more bed spaces.

5 The short-term non-residential accommodation which is in scope of the STA is accommodation which is not leased, and which is provided to guests who would generally stay for periods of less than two months.

6 Some establishments also provide long-term residential accommodation. For hotels, motels, guest houses and serviced apartments, the amount of such activity is considered to be insignificant and is included in the data presented in this publication.

DEFINITIONS OF ACCOMMODATION ESTABLISHMENTS

7 The STA includes the following categories of establishments which provide predominantly short-term non-residential accommodation to the general public:

- hotels and resorts with facilities - establishments with 15 or more rooms which are licensed to operate a public bar and which provide accommodation on a room/suite basis, with a bath/shower and toilet in most guest rooms, but which do not have full cooking facilities (i.e. hot plates and oven/microwave) in most guest rooms;
- motels, private hotels and guest houses with facilities - establishments with 15 or more rooms which are not licensed to operate a public bar, and which provide accommodation on a room/suite basis, with a bath/shower and toilet in most guest rooms, but which do not have full cooking facilities (i.e. hot plates and oven/microwave) in most guest rooms;
- serviced apartments - establishments with 15 or more units which mostly comprise self-contained units at the same location, and which are available on a unit/apartment basis to the general public for a minimum of one night; the units should have full cooking facilities (i.e. hot plates and oven/microwave), refrigerator and bath/shower and toilet facilities; all bed linen and towels should be provided, and daily servicing (i.e. cleaning and bed making) must be available through the on-site management, although this service may not necessarily be used.

CLASSIFICATION CHANGES

8 As a result of the separate classification of serviced apartments from the March quarter 1998, there have been several changes to definitions of accommodation units. Some units, which were formerly in categories such as hotels, motels or holiday flats, units and houses are now classified as serviced apartments. A small number of establishments which were previously classified as motels have been reclassified as holiday flats, units and houses and are therefore no longer in scope of the quarterly STA, except as described in paragraph 4.

COVERAGE

9 Coverage is comprehensive and from the September quarter 1999, has been obtained from the Australian Automobile Association accommodation guide, which is updated twice yearly. This is supplemented by notification of new tourism developments and their likely opening dates in selected guides, major tourism journals and periodicals and newspapers. Periodic comparison to lists of accommodation establishments provided by the various Tourism Commissions and Industry Associations is also undertaken.

DATA QUALITY

10 The survey does not have a sample component and the data are not subject to sampling variability. However, other inaccuracies collectively referred to as non-sampling error may affect the data. These non-sampling errors may arise from a number of sources, including:

- errors in the reporting of data by respondents;
- errors in the process of capturing data;
- estimation for missing data; and
- definition and classification errors.

Every effort has been made to reduce non-sampling error to a minimum by careful design and testing of questionnaires, and efficient operating procedures and systems used to compile statistics.

11 The September quarter 2001 response rates were:

- 89% licensed hotels
- 91% motels and guest houses
- 90% serviced apartments

REGIONAL DATA

12 Survey results are aggregated to Tourism Regions as defined by relevant State and Territory Tourist Commissions or equivalent organisations. Tourism Regions are reviewed annually and may be subject to boundary and name changes. Where changes have occurred care should be taken when making comparisons with previously published data at this level.

Details of the composition of Tourism Regions and major changes to Tourism Regions may be found in *Tourist Accommodation, Small Area Data* Standard Data Service products for each State/Territory (Cat. no. 8635.n.40.001) (issued quarterly). Outline maps of Tourism Regions are also provided in these Small Area Data products.

ANNUAL CAPACITY DATA

13 ABS releases counts of accommodation establishments and their capacity as at the end of December each year in respect of the pre-1998 scope of the survey (but recognising serviced apartments separately) as follows:

- hotels, motels and guest houses and serviced apartments with facilities and having five or more rooms;
- holiday flats, units and houses (other than those included with serviced apartments) which are operated by owners, managers or real estate agents who have sole letting rights to at least five flats, units or houses for short term letting;
- all caravan parks regardless of size; and
- all visitor hostels regardless of size.

14 As a result of classification changes applied from March quarter 1998 onward, data will not be comparable with that previously published for particular accommodation types.

15 These counts are published annually in a quarterly issue of Tourism Indicators, Australia (Cat. no. 8634.0).

STATISTICS AVAILABLE ON REQUEST

16 The ABS makes tourist accommodation data available on request, including statistics for past quarters, for specific areas and specific data items. For example, detailed employment statistics showing the number of full-time, part-time or casual employees may be available. Normally such data is made available on a fee for service basis.

GLOSSARY

| | |
|-------------------------------|--|
| Average length of stay | Average length of stay is expressed in numbers of days and calculated by dividing <i>Guest nights</i> by <i>Guest arrivals</i> . |
| Bed spaces | Three-quarter beds are counted as one bed space; double beds as two bed spaces. Cots are excluded. |
| Capacity | Capacity in terms of <i>Guest rooms/units</i> or <i>Bed spaces</i> is the maximum number available to accommodate paying guests during the survey period. Capacity closed temporarily for seasonal reasons is included. |
| Establishments | The number of hotels, motels and guest houses and serviced apartments within the scope of the survey which operated for any part of the survey period, or which closed temporarily for the quarter for seasonal reasons. |
| Guest arrivals | The total number of paying guests counted only on the first night they stayed at the accommodation establishment during the survey period. |
| Guest rooms | The maximum number of rooms available at each establishment during the survey period for accommodating short-term paying guests. Units and apartments within serviced apartments are treated as rooms in these survey results. |
| Occupancy | Occupancy in terms of <i>Room nights</i> refers to the total number of nights each guest room or unit was occupied during the survey period. Occupancy in terms of <i>Guest nights</i> refers to the total number of paying guests counted on each night they stayed at the accommodation establishment during the survey period. |
| Occupancy rates | <i>Occupancy rates</i> represent occupancy expressed as a percentage of total capacity available during the survey period, e.g. for the period $\text{Room occupancy rate (\%)} = \frac{\text{Room nights occupied}}{(\text{Guest rooms}) \times (\text{No. of days in the period})} \times 100$ providing that, for establishments closing (other than for seasonal reasons) or opening during the survey period, the denominator of the above expression includes only operating periods. |
| Persons employed | The total number of persons working at each accommodation establishment at the end of the survey period (including working proprietors and those working on other than accommodation activities). |
| Room nights available | The number of guest rooms/units available multiplied by the number of days for which they were available during the survey period. For establishments closing (other than for seasonal reasons) or opening during this period, operating periods only are included. |

Star grading The grading of hotels, motels and guest houses with facilities and serviced apartments based on the classification system used by members of the Australian Automobile Association (AAA). The gradings are allocated according to a points system based on the amenities and facilities available to guests. Details of the grading scheme are contained in the RACV-RAASA members' publication *Accommodation Australia*, or the individual tour guides produced by members of the AAA. For the purpose of classifying establishments to a star grading in this publication, 'half' star gradings are ignored (e.g. a two and a half star grading has been shown as two star).

From the September quarter 1999, some (very few) large establishments not star graded by the AAA have been allocated a star grade by the ABS for Survey of Tourist Accommodation statistical tabulation purposes.

Takings from accommodation Since 1 July 2000, takings from accommodation include gross revenue from the provision of accommodation, including GST. Takings from meals are excluded. In cases where takings from accommodation data cannot be provided inclusive of GST the amount of GST payable is estimated and the data revised accordingly.

Prior to 1 July 2000, takings from accommodation for some jurisdictions included bed taxes. From 1 July bed taxes were abolished being replaced by GST. Takings from accommodation for each month generally represent the takings received during that month. Where payments are received in advance of, or after, the provision of accommodation to guests, the monthly figure for takings from accommodation may not necessarily bear a direct relationship to the number of guests accommodated during the month.
