EXPLANATORY NOTES

Introduction

This bulletin contains results, for Australia and each State and Territory of the quarterly surveys of tourist accommodation establishments. The period covered by the latest survey is the 3 months ended 30 September 1977.

Changes to the September quarter survey

2. Establishments providing tourist accommodation in the Northern Territory have been *included* in the surveys for the first time.
- Caravan parks have been *included* in the surveys for the first time.
- Licensed hotels, private hotels and guest houses which provide tourist accommodation but do not provide bath or shower and toilet facilities in most rooms have been *excluded* from the surveys for the time being.

Statistics relating to caravan parks for the September quarter are not yet available, but will be published in a subsequent issue of this bulletin. Statistics relating to tourist accommodation establishments in the Northern Territory are included in the September quarter results in this bulletin, but are not included in the statistics for any earlier period.

Tourist accommodation establishment

3. There is no generally accepted definition of a tourist accommodation establishment, but for the purpose of the surveys, a tourist accommodation establishment has been defined as an establishment which provides predominantly short term accommodation (i.e. for periods of less than 2 months) available to the general public.

Scope of the survey

4. The scope of the survey may vary from time to time depending upon the needs of users of the statistics and on the ABS resources available to undertake the surveys. The types of establishments currently included in the survey are :

- (i) *Licensed hotel with facilities* – a tourist accommodation establishment which is licensed to operate a public bar, provides bath or shower and toilet in most guest rooms, and has breakfast available for guests.
- (ii) *Licensed or unlicensed motel, private hotel or guest house with facilities* – a tourist accommodation establishment which provides bath or shower and toilet in most guest rooms and has breakfast available for guests, but is not licensed to operate a public bar. This category also includes motels that are licensed to serve liquor with meals.
- (iii) *Caravan park* – a tourist accommodation establishment which provides powered sites for caravans and toilet, shower and laundry facilities for guests.

Licensed hotels, private hotels and guest houses without facilities were included in the surveys from the September quarter 1975 to the June quarter 1977 and statistics relating to such establishments were published in issues of this bulletin for that period.

Definitions

5. *Number of establishments* refers to the number of tourist accommodation establishments within the scope of the survey which operated during the 3 months ended 30 September 1977. Establishments comprising more than 1 type of accommodation activity referred to in paragraph 4 above (e.g. a motel with attached caravan park) are treated as 2 separate establishments. Included are those establishments which operated for any part of the quarter or which closed temporarily for the whole or part of the quarter for seasonal reasons; this is a minor change from the treatment adopted in previous quarters.

Guest rooms refers to the maximum number of rooms, units, suites, etc. available for accommodating paying guests during the 3 months ended 30 September 1977.

Bed spaces refers to the maximum number of guests that could be accommodated in beds normally in place at the accommodation establishment during the 3 months ended 30 September 1977. Three quarter beds are classified as single beds; double are counted as 2 bed spaces.

Room occupancy rate refers to the proportion of guest rooms occupied to the number of guest rooms available expressed as a percentage.

Bed occupancy rate refers to the proportion of bed spaces occupied to the number of bed spaces available expressed as a percentage.

Gross takings from accommodation refers to revenue received from the provision of accommodation. Where meals and accommodation are a combined charge an estimate of takings from meals was excluded. Takings from accommodation for each month represent the takings received during that month. In the case of some establishments payments may be made in advance of, or may be received after the provision of accommodation to guests and therefore the monthly figure for takings from accommodation may not necessarily bear a direct relationship to the number of guests accommodated during the month.

Employment refers to the number of persons working at tourist accommodation establishments (including those working on other than accommodation activities) at the end of the quarter and includes working proprietors or partners and salaried directors as well as employees on the payroll for the last pay period of the quarter. Employees absent on paid sick leave, holidays or long service leave are included while unpaid helpers and those who, during the whole of the last pay period, were stood down, or absent because of an industrial dispute are excluded.

For establishments comprising more than one type of accommodation activity, which have been treated as 2 separate establishments, the employment is allocated to the employee's predominant activity.
