TOURIST ACCOMMODATION – DECEMBER QUARTER 1976

SUMMARY OF RESULTS

	Dec. Qtr 1975	Mar. Qtr 1976	June Qtr 1976	Sept. Qtr 1976	Dec. Qtr 1976
Australia					
Room occupancy rate	47.2%	50.3%	48.0%	49.2%	47.6%
Bed occupancy rate	32.6%	36.4%	33.6%	34.6%	32.6%
Gross takings from accommodation	\$73.1m	\$79.7m	\$77.7m	\$83.0m	\$80.7m
Employment at end of quarter	82,095	76,148	74,147	75,247	75,848

Scope

4. The scope of the Surveys is identical to the scope of the 1973-74 Tourist Accommodation Census except for the omission of caravan parks and holiday flats. Therefore all accommodation establishments (except caravan parks) in classes 9212 and 9213 of the Australian Standard Industrial Classification which reported in the Census or by separate communication that they provide accommodation to predominantly short term visitors and provide breakfast are included in the Survey.

EXPLANATORY NOTES

Introduction

This bulletin contains results for Australia (excluding Northern Territory) of the quarterly surveys of Tourist Accommodation Establishments. The period covered by the latest survey is the three months ended 31 December 1976.

Background

2. A Census of Tourist Accommodation Establishments was conducted for the year ended 30 June 1974, to identify and measure the amount, type and location of tourist accommodation available throughout Australia. To supplement these statistics, it was considered desirable to collect data to measure the utilisation of the available accommodation. Accordingly the Australian Bureau of Statistics commenced regular quarterly Tourist Accommodation Surveys in order to satisfy the needs of various Government Departments as well as private bodies who are concerned with the development and promotion of tourism in Australia.

Tourist accommodation establishment

3. There is no generally accepted definition of a tourist accommodation establishment. For the purpose of the surveys, tourist accommodation establishments have been defined as : hotels, motels and guest houses, which provide predominantly short term accommodation (i.e. for periods of less than two months) available to the general public and which provide breakfast.

Type of establishment

5. The various types of accommodation establishments have been regrouped in the Survey to represent three establishment categories as follows :

- (i) *Licensed hotel with facilities* – an establishment which provides tourist accommodation, is licensed to operate a public bar and provides bath or shower and toilet in most guest rooms.
- (ii) *Licensed or unlicensed motel, private hotel or guest house with facilities* – an establishment which provides tourist accommodation and, provides bath or shower and toilet in most guest rooms, but is not licensed to operate a public bar. This category also includes motels that are licensed to serve liquor with meals.
- (iii) *Licensed hotel, private hotel or guest house without facilities* – an establishment which provides tourist accommodation but which does not provide bath or shower and toilet in most guest rooms.

Definitions

6. *Number of establishments* refers to the number of tourist accommodation establishments within the scope of the Survey which operated during the three months ended 31 December 1976. Included are those establishments which operated for any part of the quarter. Establishments temporarily closed for the whole quarter are excluded from this quarter's publication.

Guest Rooms refers to the maximum number of rooms, units, suites, etc. available for accommodating paying guests during the three months ended 31 December 1976.

Bed Spaces refers to the maximum number of guests that could be accommodated in beds normally in place at the accommodation establishment during the three months ended 31 December 1976. Three quarter beds are classified as single beds; double beds are counted as two bed spaces.

Room Occupancy Rate refers to the proportion of guest rooms occupied to the number of guest rooms available expressed as a percentage.

Bed Occupancy Rate refers to the proportion of bed spaces occupied to the number of bed spaces available expressed as a percentage.

Gross Takings from Accommodation refers to revenue received from the provision of accommodation. Where meals and accommodation are a combined charge an estimate of takings from meals was excluded. Takings from accommodation for each month represent the takings received during that month. In the case of some establishments, payments may be made in advance of, or may be received after the provision of accommodation to guests and therefore the monthly figure for takings from accommodation may not necessarily bear a direct relationship to the number of guests accommodated during the month.

Employment refers to the number of persons working at tourist accommodation establishments at the end of the quarter and includes working proprietors or

partners and salaried directors as well as employees on the payroll for the last pay period of the quarter. Employees absent on paid sick leave, holidays or long service leave are included while unpaid helpers and those who, during the whole of the last pay period, were stood down, or absent because of an industrial dispute are excluded.

Related publications

Census of Tourist Accommodation Establishments Australia and Australian Capital Territory year ended 30 June 1974 (Reference No. 11.50).

More detailed statistics for individual States are published in separate bulletins released by the respective State offices of the Australian Bureau of Statistics.

All statistical publications produced by the Canberra and State offices of the ABS are listed in *Publications of Australian Bureau of Statistics* (Reference No. 1.8). This and all other publications of Tourist Accommodation Statistics are available free of charge from any of these offices.
