

Public notification no. 9 of 2025

by the Australian Bureau of Statistics

Release of list of business characteristics to the Department of Education

In accordance with the requirements of section 14 of the Census and Statistics (Information Release and Access) Determination 2018, made under section 13 of the *Census and Statistics Act 1905*, the Australian Bureau of Statistics (ABS) has released a list of business characteristics, the details of which are as follows:

The ABS has disclosed to the Australian Government Department of Education (DoE) a list of identifiers of non-government schools and aggregate measures of the income of parents or guardians of students. The information was sourced from data integrated by the ABS from DoE and the Person Level Integrated Data Asset (PLIDA).

The list will be used by DoE for the purpose of the Capacity to Contribute project, to inform research, policy and calculations of the amount of base recurrent funding to non-government schools from the Commonwealth Government under the Australian Education Act 2013. This purpose does not involve enforcing any obligation or liability applicable under an enactment.

For each school in the list, the ABS provided:

- school identifier;
- derived standardised scores for direct measure of income for 2025;
- coverage rates of administrative data.

The DoE has provided the ABS with a signed undertaking, which outlines agreed upon terms and conditions for the use and management of the information disclosed.

The list was disclosed on 31 October 2025.

A handwritten signature in blue ink, appearing to read 'Bindi Kindermann'.
