<sup>a</sup> Indebted to the Bank of Australasia £256 19s. 3d., overdraft.  
<sup>b</sup> This amount of £75 was received from Government in aid of fencing in the Darling Gardens.  
<sup>c</sup> This borough was only recently established.  
<sup>d</sup> This includes £381 15s. 11d., unexpended balance from last year.  
<sup>e</sup> The Council are indebted to the bank £342 7s. 8d., overdraft.  
<sup>f</sup> This amount was refunded by the Government on account of licenses issued in 1863.  
<sup>g</sup> In addition to this amount the Council had a balance in hand of £544 19s. 3d. from 1863.

<sup>h</sup> The number of dwellings returned in 1863 (2659) was incorrect. The present return is right.  
<sup>i</sup> In addition to this amount, further sums have been received on account of 1863 and 1865.  
<sup>j</sup> This amount includes the sum of £580 17s. 6d. advanced by the Department of Roads and Bridges for repairs of damage to the Sandridge road by floods, and which has to be repaid.  
<sup>k</sup> This excess of expenditure has been met by an overdraft at the bank.  
<sup>l</sup> These figures are taken from last year's return.  
<sup>m</sup> The borough of Tarnagulla was only proclaimed in August, 1864.

NOTE.—In those boroughs marked with an asterisk (\*) no estimate of the total value of rateable property has been returned by the authorities; it has therefore been calculated in these cases at a uniform rate of ten times the annual value.

<sup>a</sup> This amount includes £3,265 11s. 10d. due in 1863.

<sup>b</sup> The Government subsidy for main roads will make up the difference between the receipts and expenditure.

<sup>c</sup> This amount includes £2,158 6s. 3d. balance of the grant for 1863.

<sup>d</sup> This includes £5,416 12s. 1d. overdrawn at the bank in 1863, and repaid this year.

<sup>e</sup> This includes a balance from 1863 of £712 14s. 8d.

<sup>f</sup> This includes £513 14s. 9d. grant of 1863.

<sup>g</sup> This includes bank overdraft, £38 4s. 3d.

<sup>h</sup> Including balance in hands of treasurer, £63 10s. 5½d.

<sup>i</sup> This includes road works only.

<sup>j</sup> The late borough of Kyneton is now incorporated in the shire of Kyneton.

<sup>k</sup> Including £123 15s. 3d. balance of rates uncollected in 1863.

<sup>l</sup> There was a balance in hand from 1862 and 1863 of £237 18s. 4d., which accounts for the excess of expenditure over receipts.

<sup>m</sup> Including £487 17s. 6d., arrears of rates due in 1863.

<sup>n</sup> The sum of £1,000 was still due on the 31st December, 1864, on the rate last struck.

<sup>o</sup> There was a balance in hand at the commencement of the year of £468 12s. 7d.

NOTE.—In several instances the above returns are incomplete, especially as regards the estimated population, number of dwellings, and total and annual values of rateable property; in two cases, also, the receipts and expenditure are only made up to the end of the financial year, 30th September and 17th October respectively. The totals of these columns do not, therefore, represent the sum of these items in all the Shires and Road Districts.

ABORIGINAL POPULATION.

RETURN of the estimated Numbers and Distribution of the Aboriginal Population in the Colony during the Year 1864.

\*\* The Aborigines have not been enumerated since the 25th September, 1863. From the reports of the Honorary Correspondents, it would appear that there has not been any serious decrease in the numbers during the past year.

NOTE.—The principle adopted in compiling the above return has been to obtain from one person, where possible, returns for a whole district, using the other returns only as a check. The above figures must be taken as approximations only; it would be very difficult and expensive to take a census yearly, and no good purpose would be served if it were done. There is apparently a reduction in the total numbers amounting to 257, which is accounted for thus: The Taa-Tatty and Lutche-lutche tribes, numbering 180, improperly included in Mr. Goodwin's return for 1862, are omitted in this; and at Swan Hill Mr. Green could find only 171 blacks, less by 44 than the return for 1862; the reduction, therefore, in the total sum is only 33. Comparing the tables district by district, it will be seen that the Southern is 1 less than in 1862. In the South-Western there is an increase of 71, which is thus accounted for: Franklinford, numbering 28, was omitted in 1862, and in other cases more recently careful returns made by the Honorary Correspondents have been substituted for those obtained by Mr. Green during his hasty visit to the Western district. The difference in the numbers for the North-Western district have been already explained, and those observed in the Northern, South-Eastern, and North-Eastern districts do not call for remark. The figures in the table are sufficient to show that the Aborigines are not decreasing so rapidly as is generally supposed. If, instead of looking at the totals, which are liable to error, for reasons already explained, we compare the returns made by Honorary Correspondents, who have a complete knowledge of the blacks under their charge, and who keep accurate accounts of the births and deaths, we shall see that in no case is the diminution very startling, having regard to the habits and present condition of this people. It is to be regretted that it has been necessary to use the returns of 1862 for some localities, but it is almost unreasonable to expect the Honorary Correspondents to make elaborate returns every year. The Central Board are now in possession of the names and other particulars of 1788 Aborigines; those respecting whom such information is wanting amount to 120, and they are located principally at Wickliffe, Mount Rouse, Hexham, Bacchus-Marsh, and Warrnambool. As the above return is imperfect, the Central Board would be glad if Honorary Correspondents and others possessing information would communicate with the Secretary. There is reason to believe that some Aborigines in the central part of Victoria are not included.

R. BROUGH SMYTH,

Secretary to the Central Board for the Protection of the Aborigines.

NOTE.—The Return of Sheep represents very nearly the entire number in the Colony. The Returns of Horses, Cattle, and Pigs are less complete, inasmuch as many of the Collectors were unable to form estimates of the numbers kept in Towns and upon Gold-fields in their respective districts, nor of the Horses and Working Bullocks used by Carriers upon the roads.

WILLIAM HENRY ARCHER,  
Registrar-General.

\* The Returns of Milch Cows, for these three years refer only to those on alienated land. The Milch Cows kept on Stations were not returned separately from the other stock until 1863. Consequently, until then, the total quantity of Milch Cows could not be ascertained. The Pigs kept on Stations, except those with purchased land attached, were not returned until 1863.

WILLIAM HENRY ARCHER,  
Registrar-General.

Sandhurst District ...	252,215
Maryborough District ...	192,450
Castlemaine District ...	277,334
Ararat District ...	86,800
Total ...	£1,496,699

NOTE.

There is a decrease in the total value of the machinery, as compared with 1863, amounting to £6,760.

The machinery used in alluvial mining in the Ballarat district shows an increase as regards steam engines. In 1863 there were 208, of 4,091 horse-power, showing an increase for 1864 of 46 in the number and of 349 in the horse-power. There is also an increase in horse puddling machines and water-wheels, and a decrease in whims and pulleys, whips, and sluices and toms. In quartz mining there is a decrease, viz., 8, in the number of steam engines, and of 52 in the horse-power. There is also a slight decrease in the number of whims and pulleys and whips, while there is an increase in the number of crushing machines and water-wheels.

In the Beechworth district the machinery used in alluvial mining shows an increase in steam engines, as compared with 1863, of 2 in the number, and 25 in the horse-power; and an increase in hydraulic hoses, pumps, and sluice-boxes, but a decrease in puddling machines, whims and pulleys, whips, sluices and toms, and water-wheels. In quartz mining the number of steam engines has been increased by 5, and the horse-power by 69, and the number of crushing machines and water-wheels in use is also greater.

The returns of machinery used in alluvial mining in the Sandhurst district exhibit an increase in steam engines, on the previous year, of 27 in the number, and of 290 in the horse-power, and also an increase in the number of whims and pulleys, whips, water-wheels, and sluice-boxes, and a decrease in the number of puddling machines. In quartz mining, the number of steam engines is decreased by 6, and the horse-power by 438, and there is a smaller number of whims and pulleys in use, but the number of crushing machines is greater.

In the Maryborough district the machinery used in alluvial mining shows an increase of 16 in the number of steam engines, and of 341 in the horse-power, and a larger number of puddling machines, whims and pulleys, sluices and toms, hydraulic hoses, and sluice-boxes, and a decrease in the number of whips. In quartz mining there is an increase of 1 in the number of steam engines, but a decrease of 260 in the horse-power; a slight increase in the number of crushing machines and whips, but a decrease in the number of whims and pulleys.

The returns for the Castlemaine district, as compared with 1863, give an increase of 1 in the number of steam engines used in alluvial mining, and add 38 to the horse-power; an increase in whims and pulleys, water-wheels, and crushing-machines is shown, and a decrease in puddling machines, whips, horse pumps, and sluices and toms. In the machinery used in quartz mining, there is an increase, as regards steam engines, of 8 in the number, and of 473 in the horse-power, and a larger number of crushing machines, whims and pulleys, derricks, and whips are employed.

In the Ararat district the machinery returns for the year 1864, as compared with those for 1863, show a decrease in the steam engines in use in alluvial mining of 9 in the number, and of 151 in the horse-power; and there is a decrease in the number of puddling machines, whims and pulleys, whips, and crushing machines, and an increase in the number of horse-pumps, sluices and toms, and sluice-boxes. In quartz mining there is an increase of 2 in the number of steam engines and of 27 in the horse-power, a decrease in the number of crushing machines, and a slight increase in the number of whims and pulleys and whips.

As the facilities of land carriage to the gold-fields increase, the depreciation in the value of mining machinery necessarily becomes greater, and the increase in the number of machines in some localities is scarcely sufficient to compensate for this general loss. It may therefore be expected that, although the number of machines used may increase from year to year, yet the approximate value may not increase in the same proportion.

R. BROUGH SMYTH, Secretary for Mines.

## QUARTZ REEFS AND EXTENT OF GOLD WORKINGS.

RETURN of the Number of distinct Quartz Reefs actually proved to be Auriferous, and of the Total Extent in Square Miles of Auriferous Alluvial and Quartz Ground actually worked upon in the various Mining Districts.

Mining Districts.	Number of distinct Quartz Reefs proved to be auriferous.	Extent in Square Miles of Auriferous Alluvial and Quartz Ground worked upon.

Total ...	1,700	892½

NOTE.—The number of distinct Quartz Reefs cannot be strictly correct, as parts of the same reef, in some localities, are held to be distinct reefs, and named accordingly. As the reefs are further explored it is found, too, that what were supposed to be separate reefs are not really distinct.  
\* The total extent of ground reported as worked upon in this district is less than that stated in the Statistics for 1863, owing, principally, to corrections having been made in the returns for the Barkly and Raglan Divisions.

NOTE.—The above table does not show the total quantity of Quartz crushed in the several localities, but only the yield of certain crushings respecting which the Mining Surveyors and Registrars have been able to obtain information. If these returns be compared with those published in former years it will be observed that, owing to the increased exertions of the Mining Surveyors and Registrars, much more information has been obtained during 1864 than in any previous year. Owing to the circumstance that many of the machine owners are unable to give, or are precluded from giving, information, it is impossible to get complete returns from each district, and in considering the relative importance of each district, as regards quartz mining, the tables relative to machinery should be examined and compared.

Since the first publication of the Statistics information has been obtained concerning 2,409,957.3 tons which have been crushed, which yielded an average of 12 dwts. 10.123 grs.

NOTE.—This table has been compiled in this Department from returns received from the Police Magistrates, Town Clerks, Chairmen of Road Boards, and other officials located in the various districts, in accordance with forms supplied them from the Immigration Office. These forms, in addition to columns for the above information, contained a request that the wages of any other prominent callings might be furnished. This request resulted in the wages of Vinedressers and Cultivators of Tobacco being returned in a few of the districts as ranging from 7s. to 10s. per day, without rations, and from £40 to £80 a year with board and lodging; also, in wages of miners being given at 8s. per day, for Amberst; at 50s. per week, for Indigo; at 50s. per week, for Pleasant Creek; and at 6s. to 8s. per day, for Waranga, in all cases without rations. In only two instances were the wages of general laborers returned, viz.: at 5s. per day, without rations, for Eltham, and at from 6s. to 10s. per day, without rations, for Pleasant Creek.

WILLIAM HENRY ARCHER, Registrar-General.

NOTE.—As regards some of the denominations the year 1859 shows an apparent falling off in the number of buildings used for public worship, and in the amount of accommodation provided. This is in consequence of those denominations having for that year given returns only of the regular Churches and Chapels, and not of the other buildings in which services were held.

<sup>a</sup> In connection with the Melbourne Public Library there is a Museum of Art, which was visited during the year by 53,276 persons.  
<sup>b</sup> The information furnished by the Secretary of the Portland Mechanics' Institute for this year being incomplete, several columns have been copied from last year's return.  
<sup>c</sup> In connection with the Sandhurst Mechanics' Institute there is a Museum of Local Geological Formations, Minerals, Fossils, Specimens of Natural History, &c.

<sup>d</sup> In the year 1862 the Talbot Mechanics' Institute was destroyed by fire, with all fittings, books, &c.; since then the Committee have been obliged to rent a room.  
<sup>e</sup> A portion of this information has been copied from last year's return.  
<sup>f</sup> In these cases the premises are rented.  
<sup>g</sup> In these cases the Borough Offices are used.

WILLIAM HENRY ARCHER, Registrar-General.

\* Of the amounts in this column, the whole for 1862, and £61 for 1863, were paid to the Lands Titles Commissioners, whose office was abolished by the Act 27 Vict. No. 180, which came into operation on the 9th September, 1863. After that date, the powers previously vested in the Lands Titles Commissioners were transferred to the Commissioner of Titles, and the fees for hearing applications were paid into the General Revenue.
