

ROAD FREIGHT MOVEMENTS, AUSTRALIA

(Cat No. 9223.0)

Thematic Maps

Section 1 – Australia by State (State of Origin by SA4 Destination)

Section 2 – Australia, Origin and Destination (by SA4)

Section 3 – Australia, State of Origin by SA4 Destination

Data Items: Total Tonnes Carried, Total Kilometres Travelled and Total Tonne-kilometres Travelled

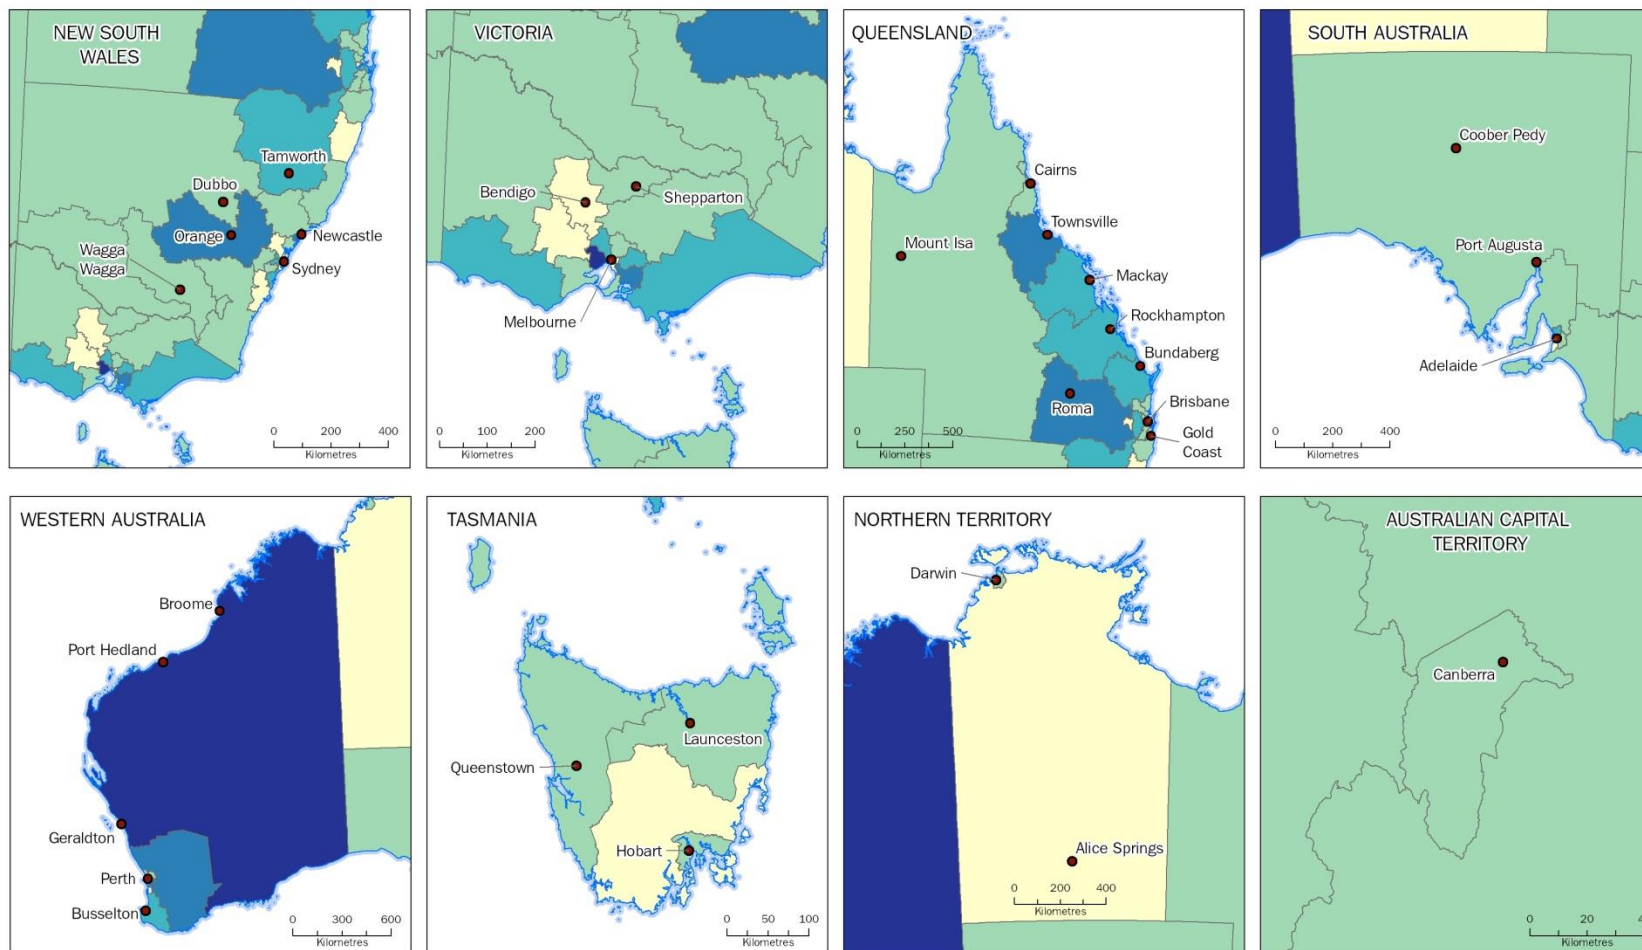

Section 1 – Australia by State (State of Origin by SA4 Destination)

The maps detailed in this section represent freight moving within the state that it originated (intrastate). For example the figures represented in the 'Total Tonnes Carried within Australia, State of Origin by SA4 Destination - New South Wales' map show freight tonnage that originated in NSW and which SA4 (within NSW) it was delivered to (its destination).

Note: These maps represent the results from the **2014 Road Freight Movements, Australia (9223.0)** survey, they show the movements in: *Total Tonnes Carried*, *Total Kilometres Travelled* and *Total Tonne-kilometres Travelled* for each state. The figures represented are **State of Origin by SA4 Destination**.

TOTAL TONNES CARRIED WITHIN AUSTRALIA, STATE OF ORIGIN BY SA4 DESTINATION STATISTICAL AREA LEVEL 4

Total Tonne-Kilometres Travelled

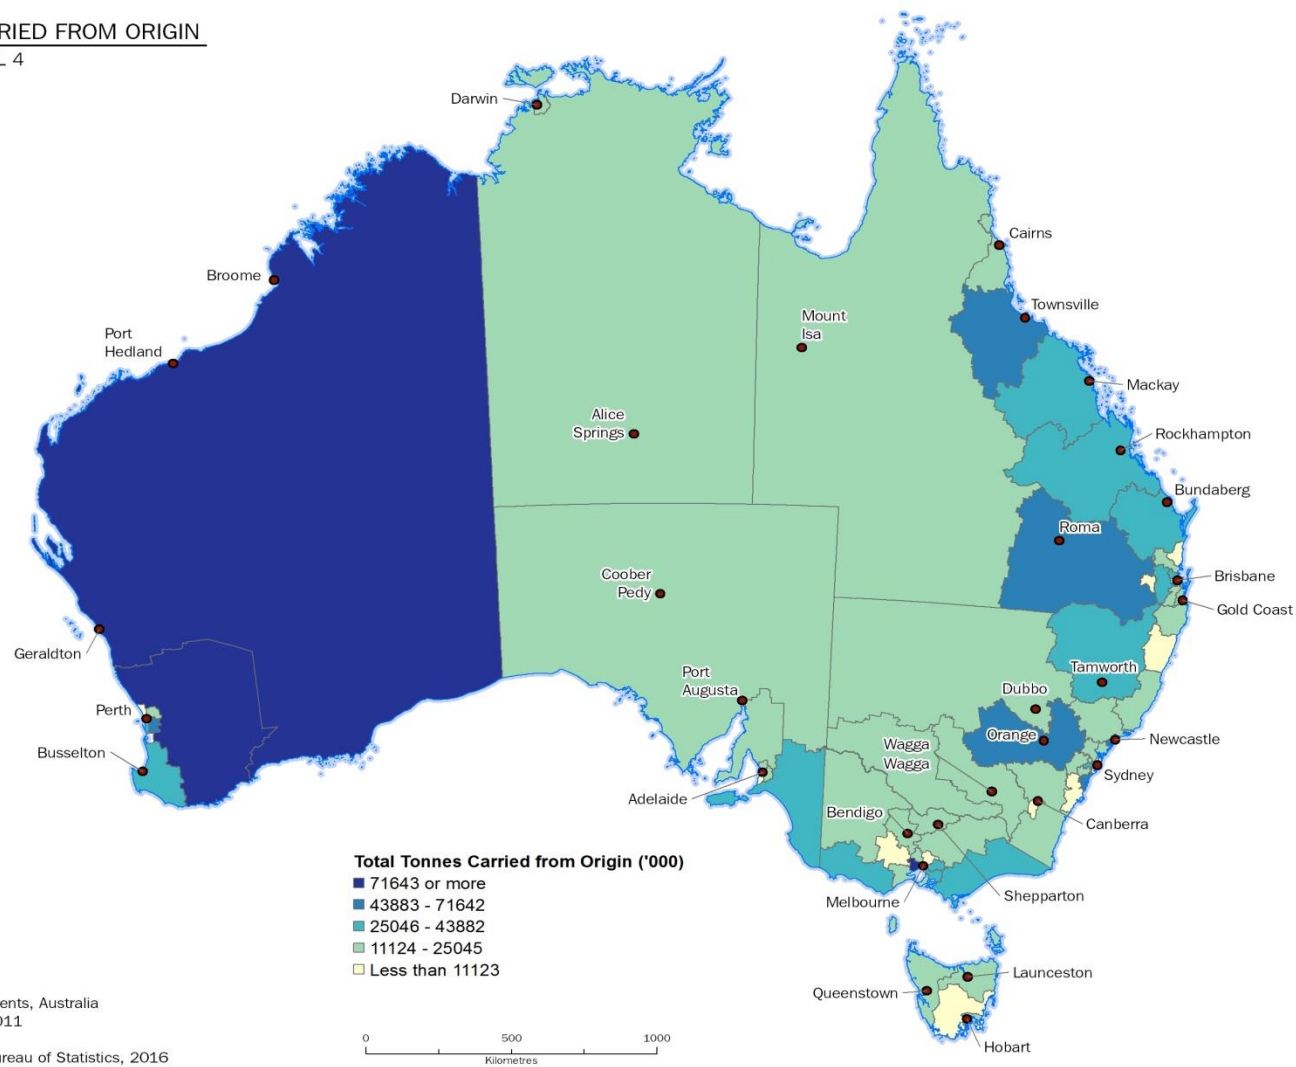

Section 2 – Australia, Origin and Destination (by SA4)

The maps detailed in this section represent the origin of freight and the destination of freight within Australia (interstate) at SA4 level. For example the figures represented in the 'Total Tonnes Carried from Origin' map provide a picture of where the bulk of freight tonnage across Australia originates by SA4 level.

Note: These maps represent the results from the **2014 Road Freight Movements, Australia (9223.0)** survey, they show the movements in: *Total Tonnes Carried*, *Total Kilometres Travelled* and *Total Tonne-kilometres Travelled* for each state. The figures represented are **Origin by SA4 and Destination by SA4**.

ROAD FREIGHT MOVEMENTS, AUSTRALIA

Thematic Maps

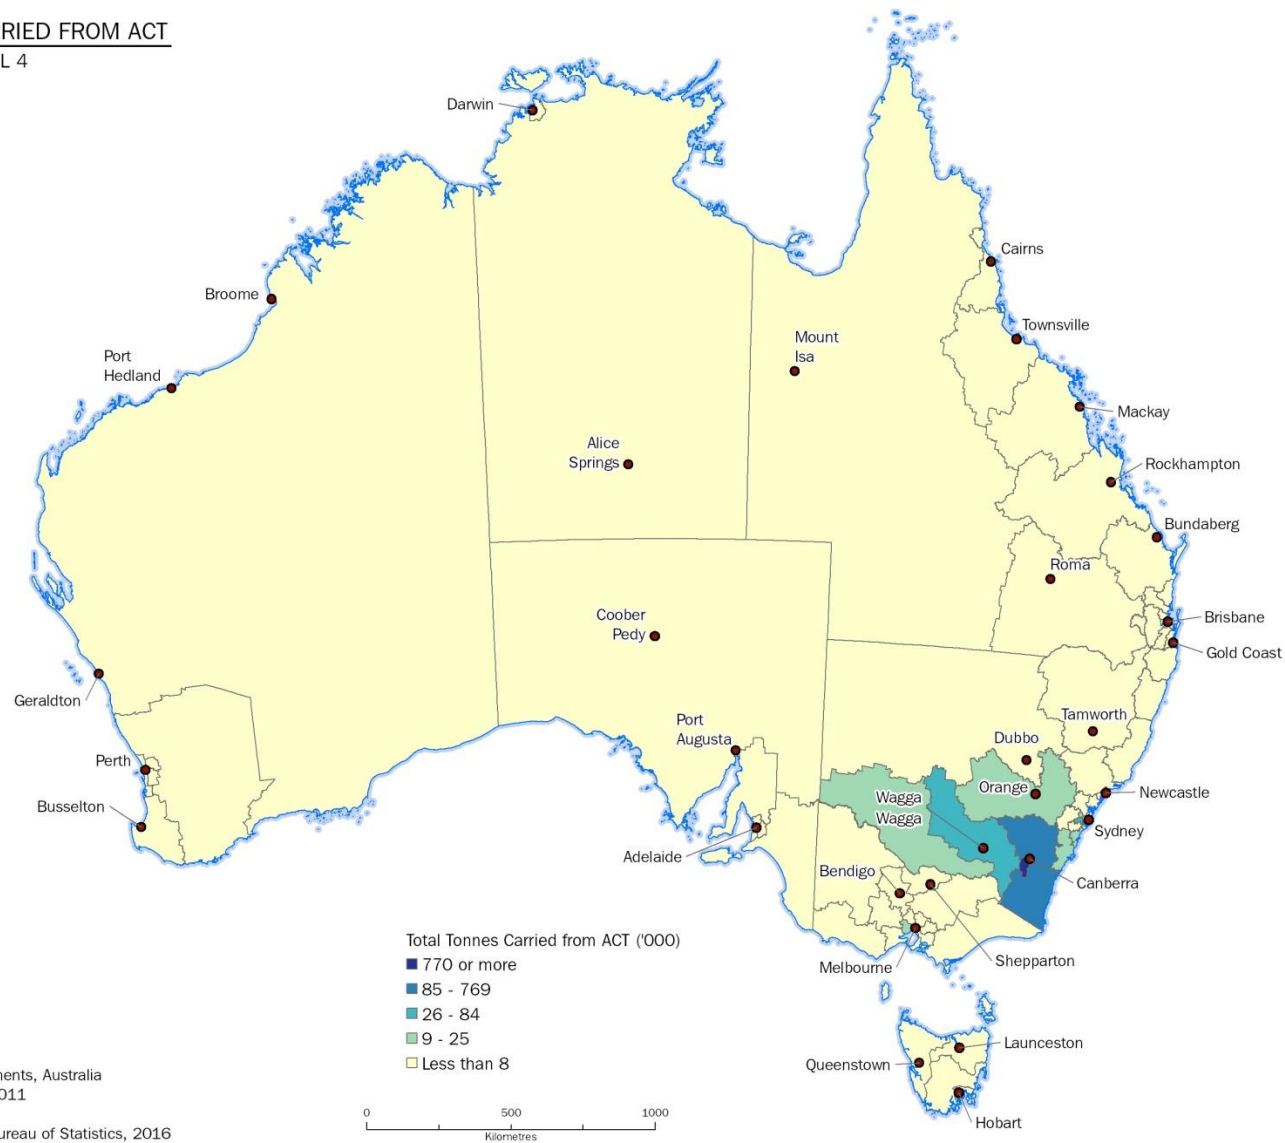

Section 3 – Australia, State of Origin by SA4 Destination

The maps detailed in this section represent origin by destination estimates for freight moved from each State to its destination within Australia (interstate) at SA4 level. For example, the figures represented in the 'Total Tonnes Carried from ACT' map provide a picture of where the bulk of freight tonnage originating in the ACT travelled to its destination in Australia at SA4 level.

Note: These maps represent the results from the **2014 Road Freight Movements, Australia (9223.0)** survey, they show the movements in: *Total Tonnes Carried*, *Total Kilometres Travelled* and *Total Tonne-kilometres Travelled* for each state. The figures represented are for all of **Australia, State of Origin by SA4 Destination**.
