

# **Survey of Disability, Ageing and Carers Establishment Component Questionnaire**

In correspondence, please quote this number

Please correct
any errors

### **Purpose of Collection**

The Survey of Disability, Ageing and Carers collects information about the health conditions of occupants in health care and aged care establishments. The information gathered by the survey will assist both public and private sector decision-makers in planning for the future provision of health and aged care services.

#### **Collection Authority**

The information asked for is collected under the authority of the *Census and Statistics Act 1905*. Your cooperation is sought in completing and returning this form by the due date. The Act provides me with the power, if needed, to direct you to provide the information sought.

#### **Confidentiality**

Your completed form and personal information remain confidential to the Australian Bureau of Statistics.

#### **Due Date**

Please complete this form and return it in the reply paid envelope to the Australian Bureau of Statistics by **18 June 2015**.

### Help Available

If you have problems in completing this form, or feel that you may have difficulties meeting the due date, please contact the Australian Bureau of Statistics.

### Please read this first

- Important: This form will be read using electronic equipment.
- Use **only black ball point pen** when completing this form.
- Keep each number, letter or tick within the data entry boxes provided, for example

• Leave answer boxes blank where you have no response or data to enter.

- Do not use 'nil', 'n/a' or draw a line in the data entry boxes.
- If a mistake is made, cross out the incorrect answer and either write the answer in the remaining boxes, or if not enough space is left, write next to the relevant item.
- The items listed under *Including* and *Excluding* are examples and should not be taken as a complete list of items to be included or excluded.
- You will need to report an estimate of time taken when you have completed this form.

#### Notes

- The term 'occupant' refers to the person selected from your health establishment, for whom you are filling in this form.
- Only current long-term health conditions should be recorded. Long-term health conditions are conditions which have lasted, or are likely to last, for 6 months or more.
- Where people suffer attacks or relapses at irregular intervals (e.g. asthma, epilepsy, schizophrenia), record the conditions if these attacks or relapses have occurred within the last 12 months.
- If the condition has not occurred within the last 12 months because it has been controlled by medication, it should still be recorded.
- If the cause of the problem is due to ageing, the condition which caused the problem should be recorded (e.g. osteoporosis, dementia).
- Specify the medical name of the long-term health condition, and where relevant, state the part of the body affected (e.g. lung cancer, paralysis of the arm).
- When asked to provide the main condition, if unsure whether or not the condition fits into a listed category, please select 'Other' and specify the condition.

#### Restriction in everyday activities

 Where a person is less able, or unable, to engage in an everyday activity compared to a healthy individual of the same age. Restrictions may be physical, psychological or cognitive. Everyday activities include but are not limited to eating, bathing, dressing, toileting, communicating, and mobility.

### Help/assistance

• Includes help that is being received, as well as help that may be needed but not being received.

### Supervision

• Being watched over or directed during a task.
