

The 2021 Census in numbers

The 2021 Census will count **25 million people**.

More than **10m instructions** will be delivered to households.

Takes the average household **30 minutes** to complete **65 questions** in the Census.

Field staff will complete a combined total of around **2 million hours of work**.

38,000 temporary staff will be employed to work in the community and data operations.

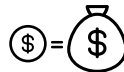

Information on the Census is available in **29 languages and Auslan**.

Our field staff will travel **13 million km** to reach every town and city in Australia.

We will receive over **500 tonnes of mail** (that's equivalent to the weight of almost 4 blue whales - the largest animal on earth).

For every **\$1 invested** in the Census, **\$6 of value is generated** to the Australian economy.

Almost **50% of the Australian land mass** is covered by our remote team of 2,000 staff.
