Views on the proposal to enhance the 2006 Population Census

Proposal 1

The ABS is proposing to create the Statistical Longitudinal Census Dataset (SLCD) by:

- o combining data from the 2006 Census with data from future censuses; and
- o combining data from the 2001 Census with data from the 2006 Census.

Data would be brought together without using name and address, using statistical techniques. Name and address would be destroyed after census processing. The SLCD would be for statistical use only and no identifiable data would be released from the ABS. The reasons for the ABS considering this proposal are explained in the Discussion Paper in Section 2.

Q4. Do you, or does your organisation, support Proposal 1 if 2006 Census data are combined with data from future censuses?

Please tick

- Yes
- No
- Don't know

Q5. What are your reasons?

HISTORICAL
TO DEVELOP A LINE OF STATISTICAL
RELATIONSHIP.

Q6. Do you, or does your organisation, support Proposal 1 if 2001 Census data are combined with data from the 2006 Census?

Please tick

- Yes
- No
- Unsure/Don't know

Q7. What are your reasons?

THE MORE DATA THE MORE RELEVANT
INTERPRETATION OUTCOMES AND A
BETTER HISTORICAL PICTURE CAN BE
DEVELOPED.

Proposal 2

The ABS is proposing to make the SLCD available for use in conjunction with other ABS statistical collections, such as ABS household surveys, using statistical techniques. Use would be for statistical purposes only, with no identifiable data released outside the ABS.

The reasons for the ABS considering this proposal are explained in the Discussion Paper in Section 3.

Q8. Do you, or does your organisation, support Proposal 2?

Please tick

- Yes
- No
- Don't know

Q9. What are your reasons?

MUCH WIDER PICTURES

Proposal 3

The ABS is proposing to make the SLCD available for use in conjunction with selected non-ABS datasets. These datasets are birth and death register data, long-term immigration data and national disease registers. This would involve using statistical techniques to bring the datasets together. Use would be for statistical purposes only, and no identifiable data would be released from the ABS.

The reasons for the ABS considering this proposal are explained in the Discussion Paper in Section 4.

Q10. Do you, or does your organisation, support Proposal 3?

Please tick

BETTER OVERALL MUNICIPALITY, STATE AND NATIONAL SERVICES

Proposal 4

(a) The ABS is proposing to use name and address information available at the time of census processing to bring together 2006 Population Census data with the ABS' 2006 Agricultural Census.

Name and address information used in combining the data would be destroyed on completion of census processing. The dataset would be used for statistical purposes only, and no identifiable data would be released from the ABS.

The reasons for the ABS considering this proposal are explained in the Discussion Paper in Chapter 5.

Q12. Do you, or does your organisation, support Proposal 4(a) if the ABS used 2006 Population Census data with 2006 Agricultural Census data?

Please tick

Yes

No

Don't know

Q13. What are your reasons?

PROVIDING THEIR IS TO REFERENCE

RETAINED TO NAME & ADDRESS

(b) For quality studies and other specific statistical studies, the ABS proposes to consider the use of name and address information available at the time of census processing to bring together 2006 Population Census data with other selected datasets namely, ABS household surveys, birth and death register data, long-term immigration data and national disease registers.

Any datasets created for these statistical studies would be kept for a limited time and destroyed after completion of each project. Census name and address information would be destroyed on completion of census processing. No identifiable data would be released from the ABS.

The reasons for the ABS considering this proposal are explained in the Discussion Paper in Section 5.

Q14. Do you, or does your organisation, support Proposal 4(b) if the ABS used 2006 Population Census data with these additional datasets?

Please tick

Yes

No

General comments

Q19. Have you any other comments on the proposals to enhance the population census dataset?

If there is insufficient space, please attach a separate sheet.

STRICT PRIVACY & CONFIDENTIALITY

What next?

Information from this submission will be used to inform the Australian Statistician about the reaction from the Australian public, census data users and other interested people, to the proposals being considered. An 'in principle' decision on whether to proceed with any part of these proposal will be made by June 2005. A final decision will depend on community support and the legislative process. You will be notified of the decision.
