Emerging Religions

There has been a downward trend in the proportion of people identifying with Christianity in the last 10 years. There also does not appear to be an emergence in any particular Christian denomination in that time. However, there is a rise in the proportion of non-Christian religions in Australia.

Reflecting recent trends in migration, the proportion of people reporting a religion other than Christianity in the Census increased from 2006 to 2016. Although the increase spread across most non-Christian religions, it was mainly driven by Hinduism (0.7% to 1.9% in 2016), Islam (1.7% to 2.9%), and Sikhism (0.1% to 0.3%). The increase in the proportion of Hindus and Sikhs is also reflected in the number of migrants born in India.
