VOLUME V.—WESTERN AUSTRALIA

PART II.—CROSS-CLASSIFICATIONS OF THE CHARACTERISTICS OF THE POPULATION

PREFACE

This publication contains particulars of the characteristics of the population of Western Australia recorded at the 1961 Census.

Characteristics of the population (i.e. Age, Conjugal Condition, Birthplace, Period of Residence in Australia of Persons born outside Australia, Nationality, Race, Religion, Industry, Occupation and Occupational Status) are shown—(i) for Western Australia as a whole in comparison with earlier Censuses, (ii) for the Metropolitan Urban, Other Urban and Rural Divisions of Western Australia, and (iii) for Western Australia as a whole in cross-classification with other recorded characteristics of the population. Separate particulars are given for each sex and 1961 Census totals for persons are provided for each characteristic. In addition, information is provided on the masculinity, density and intercensal increases of the population.

This is one of five Parts which will constitute the complete Census Volume for Western Australia, viz. Part I.—Analysis of Population in Local Government Areas and in Non-municipal Towns; Part II.—Cross-classifications of the Characteristics of the Population; Part III.—Analysis of Dwellings in Local Government Areas and in Non-municipal Towns; Part IV.—Cross-classifications of the Characteristics of Dwellings and of Householders; and Part V.—Population and Dwellings in Localities. A similar Volume is being prepared for each State, for the Territories and for Australia as a whole. A list of printed and mimeographed 1961 Census publications already issued is shown inside the back cover of this Part.

Explanatory notes relative to the contents of this Part follow the Table of Contents.

Owing to limitation of space, cross tabulations of characteristics of the population have been published only for Western Australia as a whole. However, these cross-classifications are available separately for Metropolitan Urban, Other Urban and Rural Divisions on application to the Commonwealth Statistician.

EXPLANATORY NOTES

Divisions of State.—The Divisions of State for Western Australia—Metropolitan Urban, Other Urban, Rural and Migratory as defined for Census purposes and as referred to throughout this Part are constituted as follows:—

Metropolitan Urban. The boundary of the Metropolitan Area is determined for Census purposes by the Commonwealth Statistician and the Deputy Commonwealth Statistician. The area includes the City of Perth and eighteen adjacent Cities, Towns and Shires, or parts thereof, as detailed in the Tables of Part I. of this volume (*see also* map accompanying Part I.).

Other Urban. Relates to (i) all separately incorporated Cities and Towns outside the Metropolitan Urban Division; (ii) towns not separately incorporated with a population of 1,000 persons or more; and (iii) that part of Kalgoorlie shire included in Kalgoorlie and Suburbs.

Rural. Comprises the remaining portions of the State and is affected by the intercensal changes in the areas of the Metropolitan Urban and Other Urban Divisions.

Migratory. Refers to persons not elsewhere enumerated who at midnight between 29th and 30th June, 1961 were on ships in Western Australia waters, or were travelling on long-distance trains, motor coaches or aircraft.

Variation in the boundaries of divisions of State is a factor that must be borne in mind when making comparisons between Censuses.

Age.—At Censuses a small proportion of people omit to state their age. At Censuses prior to 1954, these persons were distributed after tabulation over the full range of ages from 15 years upwards, except in 1911, when an effort was made to distinguish children under 15 years of age. These were then distributed over ages 0–14 years.

At the 1954 and 1961 Censuses an age was allocated prior to tabulation to those persons whose age was not stated. The method used in 1961 was as follows—

From an examination of the particulars on the Householder's Schedule for the person concerned, or other persons, a decision was made (in accordance with pre-determined rules) as to the range of ages within which it was considered the missing age must lie. Then from a list of random ages for the appropriate sex a selection of the first age within the determined range was made. Where more than one age had to be determined on a Schedule the method was to determine first the age of the person for whom it was thought the age range could be estimated within the shortest limits. The age determined for this person was then used in determining the ranges of age for other persons on the Schedule.

Conjugal Condition.—At Censuses a small proportion of people omit to state their conjugal condition. At the 1961 Census for the first time, these persons were allocated a conjugal condition prior to tabulation. The method used was as follows—

Males under 20 years of age and females under 18 years were considered to be "never married" unless there was some definite evidence of marriage in other information on the Schedule, in which case the "married" status was given. Males aged 20 years or over and females aged 18 years or over were coded as "married" if there was any evidence of marriage in other information on the Schedule. Otherwise the conjugal condition was determined from a list of random conjugal conditions applicable to the particular age and sex group. The age groups used were 20–21 years, 22–24 years, 25–29 years, 30–39 years, 40–49 years, 50–59 years, 60–69 years, 70–79 years and 80 years and over. Within these groups the random conjugal conditions were proportioned to the expected distribution within the group.

Nationality.—The term "British" used in this publication refers to those persons who were recorded on the Census Schedule as (a) "British" or "British by Naturalization", (b) citizens of the following countries—United Kingdom and Colonies, Canada, Australia, New Zealand, South Africa, Newfoundland, India, Pakistan, Southern Rhodesia and Ceylon (by virtue of the *Nationality and Citizenship Act 1948–1960* Citizens of these countries are deemed to be British), and (c) Irish citizens. Particulars of Irish citizens were tabulated separately, but for purposes of publication have been combined with British.

Occupational Status.—At Censuses a small proportion of people omit to state their occupational status. At the 1961 Census, for the first time, these persons were allocated an occupational status prior to tabulation. The method used was as follows—

Where no reply was given to questions 11–14 on the Schedule a decision was first made from any other evidence on the Schedule as to whether the person was not in the work force (child under 5 years; child 5–15 years; married woman; woman other than married, 60 years and over; man 65 years and over) or in the work force. If the latter, then the occupational status was made the same as the first comparable person in following Schedules. Where a reply was given to questions 13 and/or 14 indicating the industry as government, semi-government or a company the occupational status was made "Employee (on wage or salary)".

Race.—This characteristic refers broadly to the ethnic origin of the person irrespective of where born or of what nationality. For this characteristic the basic data do not permit of scientific classification of ethnic origin and the races are named with a geographical rather than a truly ethnological description. Thus "Japanese" to indicate natives of Japan refers to the ethnic types inhabiting that country and normally to be found there. In other words, each racial group described in this fashion is a mixed group when viewed in the light of the hypothetical genetic types from which it is derived.

Religion.—Under the Commonwealth Census and Statistics Act it is not compulsory to answer the question on religion and a note to this effect is incorporated in the Census Schedule. It is mainly for this reason that the number of people who do not state their religion is comparatively large.

The broad features of this Part may be ascertained from the Table of Contents on page 5, but to facilitate reference to particular subjects a Classification of Tables according to Contents is also provided following the Table of Contents.

Particulars of full-blood aboriginals are excluded throughout.

(a) The category "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc., or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it.

(a) The category "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc., or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it.

(a) The category "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc., or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it.

(a) The category "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc., or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it. (b) So described in individual Census Schedules.

CENSUS OF THE COMMONWEALTH OF AUSTRALIA, 1961

NOTE.—The category "Not at Work", as shown in Tables Nos. 58-67, includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc. or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the numbers of unemployed available for work and unable to obtain it.
