CENSUS OF THE COMMONWEALTH OF AUSTRALIA, 30TH JUNE, 1961

VOLUME VIII.—AUSTRALIA

PART II.—CROSS-CLASSIFICATIONS OF THE CHARACTERISTICS OF DWELLINGS AND OF HOUSEHOLDERS

P R E F A C E

This publication contains particulars of the characteristics of dwellings and of householders in the Commonwealth of Australia recorded at the 1961 Census. It is one of the three Parts (viz., Part I.—Cross-classifications of the Characteristics of the Population; Part II.—Cross-classifications of the Characteristics of Dwellings and of Householders; and Part III.—Population and Dwellings in Localities (with Geographical Co-ordinates)) which together with the Statistician's Report and the Australian Life Tables constitute the Census Volume for the Commonwealth of Australia.

Dwellings are classified by a number of characteristics (i.e. Class of Dwelling, Material of Outer Walls, Number of Rooms, Number of Inmates, Date of Building, Weekly Rent (Unfurnished), and Facilities). Comparisons are made with the 1954 Census and certain dwellings characteristics are shown in cross-classification with each other.

The distribution of dwellings is shown by Metropolitan Urban, Other Urban and Rural Divisions of Australia. Owing to limitation of space a number of the cross-classified tabulations of characteristics of dwellings and householders have been published only for Australia as a whole. However, these cross-classifications are available separately for Metropolitan Urban, Other Urban and Rural Divisions on application to the Commonwealth Statistician.

Limited information on dwellings for each State and Territory is shown in Section IV. of this publication. Cross-classifications of the characteristics of dwellings and householders in each State will be found in Part IV. of the relevant State Volume and of each Territory in the Territories Volume.

Each State Volume contains five Parts, in three of which (Parts II., IV. and V.) the arrangement of Tables is identical in all essential respects with the relevant Parts (Parts I., II., and III. respectively) of the Australia Volume. The additional parts in each State Volume are, Part I.—Analysis of Population in Local Government Areas and in Non-municipal Towns; and Part III.—Analysis of Dwellings in Local Government Areas and in Non-municipal Towns.

Explanatory notes relative to the contents of this Part follow the Table of Contents. A list of printed and mimeographed 1961 Census publications already issued is shown inside the back cover of this Part.

EXPLANATORY NOTES

The Divisions Metropolitan Urban, Other Urban, Rural and Migratory as defined for Census purposes and as referred to throughout this Part are constituted as follows:

Metropolitan Urban. For the 1961 Census, the Metropolitan Urban Division includes the statistical metropolitan areas of the capital cities of the States, and the City of Canberra, the National Capital. The boundary of each State Metropolitan Area is determined for Census purposes by the Commonwealth Statistician and the Deputy Commonwealth Statisticians, and includes, together with the city proper, those municipalities and shires (or parts thereof) which constitute contiguous urban development.

Other Urban. Relates to (i) all separately incorporated municipalities (or Cities, Towns or Boroughs) outside the Metropolitan Urban Division except for any municipality or part of a municipality which was specifically regarded as rural for Census purposes, or where the population of the whole municipality was less than 1,000 persons (750 persons in Tasmania); and (ii) Towns not separately incorporated with a population of 1,000 persons or more, (750 in Tasmania).

Rural. Comprises the remaining portions of each State and Territory and is affected by the intercensal changes in the areas of the Metropolitan Urban and Other Urban Divisions.

Migratory. Refers to persons not elsewhere enumerated who at midnight between 29th and 30th June, 1961 were on ships in Australian waters, or were travelling on long-distance trains, motor coaches or aircraft.

Variation in the boundaries of divisions is a factor that must be borne in mind when making comparisons between Censuses.

DEFINITIONS

Occupied Dwelling. An occupied dwelling is any habitation occupied by a householder group living together as a domestic unit, whether comprising the whole or only part of a building. The term has therefore a very wide reference and includes, in addition to houses and flats, a great variety of "dwellings" ranging from a single-roomed shack to a multi-roomed hotel or institution. Occupied dwellings are classified into "private" and "other than private" dwellings.

Private Dwelling. Private dwellings are further classified into the following four categories—

Private House. Private Houses include houses, sheds, huts, garages, etc., used for dwelling purposes, and shared private houses for which only one Householder's Schedule was received.

Share of Private House. A Share of a Private House is a portion of a shared private house which is occupied separately and for which a portion a separate Householder's Schedule was received.

Flat. A Flat is part of a house or other building which can be completely closed off and which has its own cooking and bathing facilities.

Other Private Dwelling. These include private dwellings such as rooms, apartments, etc., which are parts of buildings but are not self-contained units.

Other than Private Dwelling: These include Hotels; Motels; Boarding Houses, Lodging Houses and Hostels; Educational, Religious and Charitable Institutions; Hospitals; Defence and Penal Establishments; Police and Fire Stations; Clubs; Staff Barracks and Quarters, etc.

Unoccupied Dwelling. These include vacant dwellings available for sale or renting; dwellings such as "week-ender", "holiday home", "second home", "seasonal workers' quarters", which were not occupied on the night of the Census; dwellings normally occupied but whose usual occupants were temporarily absent on the night of the Census; newly completed dwellings whose owners or tenants had not entered into occupation on the night of the Census; dwellings described as "to be demolished", "condemned", "deceased estate", "exhibition home", etc.; and buildings constructed as dwellings but used for non-dwelling purposes on the night of the Census. The total number of unoccupied dwellings shown for any area must not, therefore, be read as representing the number of vacant houses and flats available for sale or renting.

Campers-out. Refers to those people, other than "Migratory" (see above), who were not enumerated in a dwelling. Included are such people as those camped beside their vehicle by the roadside, drovers and other itinerants.

Rooms. These include kitchen and permanently enclosed sleep-out, but do not include bathroom, pantry, laundry or storehouse. Rooms in non-attached buildings are included only if used for living or sleeping purposes by the household group. Rooms recorded for a "share of private house" include only those used by the occupier of the share. A shared kitchen or living room is recorded only for the share occupied by the owner or principal tenant.

Rent. The data relating to rents are only for dwellings rented unfurnished. The figures representing "rent not stated" include rent-free dwellings, those rented on a furnished basis and those for which rents were not applicable (e.g., for shop and dwelling combined). All rents shown are exclusive of data relating to tenants paying rent to a Government Authority in 1954 and to a State Housing Authority in 1961. However, particulars for the Northern Territory and the Australian Capital Territory include rents of all tenanted dwellings whether Governmental Housing or not.

Particulars of full-blood aboriginals and dwellings occupied solely by them are excluded throughout.

(a) Includes houses, sheds, huts, etc., and shared private houses for which only one Householder's Schedule was received. (b) Portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was received. (c) This information was furnished by occupants of dwellings at 30th June, 1961. For a number of reasons figures shown on this line do not agree with the number of dwellings by class recorded at the Census of 30th June, 1954, e.g., demolitions, conversion from one class of dwelling to another and errors of memory regarding date of building. Also the figures are not precisely comparable with 1954 data because of changes in classification of dwellings adopted at the 1961 Census, as indicated in Table 2. (d) After 30th June, 1954, but year not stated.

(a) At the 1961 Census, Householders were instructed on the Schedule to write "Tenant (G)" if they paid rent to the Governmental Housing Authority in their State or Territory. In New South Wales, for example, the instruction on the Householder's Schedule was "Tenant paying rent to Housing Commission of New South Wales to write 'Tenant (G)'. (b) Includes "Not Stated". (c) Includes houses, sheds, huts, etc., and shared private houses for which only one Householder's Schedule was received. (d) This information was furnished by occupants of dwellings at 30th June, 1961. For a number of reasons the figures shown on this line do not agree with the number of dwellings by class recorded at the Census of 30th June, 1954 e.g., demolitions, conversion from one class of dwelling to another and errors of memory regarding date of building. Also the figures are not precisely comparable with 1954 data, because of changes in classification of dwellings adopted at the 1961 Census, as indicated in Table 2. (e) After 30th June, 1954, but year not stated.

(a) Includes houses, sheds, huts, etc., and shared private houses for which only one Householder's Schedule was received. (b) Portion of a shared private house which is occupied separately and for which portion a separate Householder's Schedule was received. (c) At the 1961 Census, householders were instructed on the Schedule to write "Tenant (G)" if they paid rent to the Governmental Housing Authority in their State or Territory. In New South Wales, for example, the instruction on the Householder's Schedule was "Tenant paying rent to Housing Commission of New South Wales to write 'Tenant (G)'". (d) Includes "Not Stated". (e) The category "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc., or because they were on strike, changing jobs, or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work" therefore, do not represent the number of unemployed available for work and unable to obtain it.

(a) Includes houses, sheds, huts, etc., and shared private houses for which only one Householder's Schedule was received. (b) This information was furnished by occupants of dwellings at 30th June, 1961. For a number of reasons figures shown on this line do not agree with the number of dwellings by class recorded at the Census of 30th June, 1954, e.g., demolitions, conversion from one class of dwelling to another and errors of memory regarding date of building. Also the figures are not precisely comparable with 1954 data because of changes in classification of dwellings adopted at the 1961 Census, as indicated in Table 2. (c) After 30th June, 1954, but year not stated. (d) Portion of a shared private house, which is occupied separately and for which portion a separate Householder's Schedule was received. (e) In addition to private houses and flats, includes shares of private houses and other private dwellings.
