The information was sourced from data integrated by the ABS from DESE and the Multi-Agency Data Integration Project, and includes:

- school name, school identifier and school sector;
- school geographic area;
- derived standardised scores for direct measure of income, for 2018, 2019 and 2020;

- summary measures of parental income, and associated missingness, accuracy and volatility measures;
- average family size;
- linkage and coverage rates of administrative data.
