Hi

We fixed up the general and media messages (edits in red) - Not sure where the earlier reference to web 'help' content came from.

General message

For anyone experiencing problems completing their Census form online, please refer to the online help pages on the Census website, particularly 'Completing your Census online', which can be accessed at http://help.census.abs.gov.au/help/information/complete#backtotopand 'Troubleshooting' which can be accessed at

http://help.census.abs.gov.au/help/information/complete/troubleshooting#backtotop. If you need further help you can submit an online enquiry form from the 'Contact us' page on the Census website, which can be accessed from the help pages, site footer or at

https://www.census.abs.gov.au/eCensusWeb/contact.jsp. You can also try it on another device or call for a paper Census form on 1300 820 275.

Hi all,

Can we please use this message if required in our various channels, if we starting getting/seeing public enquiries about problems accessing or using the online form:

Hi
It looks like we're getting closer with the Twitter trends/moments.
While we are still working on automatically switch off at midnight. We are still working to get them off ASAP.
With the traditional advertising, radio activity was only booked to run between 5:30am and 7pm but there may be some bonus ads running. TV is booked between 6am and midnight. The way that these are trafficked, we will be unable to pull any ads before mid-morning if instructed to pull.
can also be turned off quite quickly in the morning if required. Any press cancellations will depend on if the papers have gone to print or not. Again we won't be able to contact them until morning.
Let me know if you require us to pull any of the advertising booked from tomorrow for these non-digital channels.

Thanks for your email - sorry have been meaning to get a message out to you for the last half hour or SO.

Can pick and choose/mix and match from these depending on the scenario:

- The online form and website are operating smoothly as expected.
- You may be experiencing a local technical issue.
- If your device or browser does not meet the minimum system requirements, we recommend that you use another device. http://help.census.abs.gov.au/help/information/complete/system
- If you continue to experience technical issues, please contact the Census Inquiry Service on 1300 214 531 or submit a Technical enquiry via our website.
 - https://www.census.abs.gov.au/eCensusWeb/help_form.jsp
- You can request a paper form by calling 1300 820 275 (available 24 hours)
- There's still time. You will not be fined if you complete your Census after Census night. Try calling after August 10 when we expect call volumes to reduce.

General questions

Q: When is the Census?

August 9 is Census night. For more info, check out https://www.youtube.com/watch?v=SpealMkXous

Q: What is the Census?

The Census is a snapshot of every person and household in Australia on one night. For more info, check out https://www.youtube.com/watch?v=SpealMkXous

Q: Why have a Census?

The Census estimates Australia's population, which helps plan for things like housing, transport, education, health, and the environment. For more info check out, https://www.youtube.com/watch?v=XEfcLYWzyAw

Q: What is Australia's population?

Australia's population is now over 24 million people! Check out our population clock, go to www.abs.gov.au

Q: When was the first Census held?

The first national Census was held in 1911. The 2016 Census is the 17th national Census. For more info, check out https://www.youtube.com/watch?v=SpealMkXous

Q: How often are Censuses held?

The Census is held every five years. The last Census was held in August 2011, marking 100 years of national Census taking in Australia. For more info, check out https://www.youtube.com/watch?v=SpealMkXous

Q: Why is the Census held every five years?

Taking a snapshot of Australia every 5 years allows us measure the nature and distribution of Australia's population, what has change over time, which allows us to plan for the future. For more info, check out https://www.youtube.com/watch?v=SpealMkXous

Q: How is the date of the Census chosen?

Census night is Tuesday 9 August, 2016. There are no holidays at this time and most people are likely to be at home at their usual place of residence. For more info, check out https://www.youtube.com/watch?v=SpealMkXous

Q: How long does it take to plan and organise a Census?

It takes 7 years to plan, test and process each Census. Planning for the 2021Census has already begun!

Q: How much does the Census cost?

The 2016 Census will cost \$272 million, and the digital-first approach will save taxpayers about \$108 million! For more info check out https://www.youtube.com/watch?v=8WpxVS6Alt0.

Q: Do you expect to be able to count everyone in Australia on Census night?

We aim to count everyone in Australia on Census night, and only a small number are missed. In 2011, 98% of people completed the Census.

Q: Why are foreign diplomats and their families not counted?

Australia is part of an international agreement that says we won't question Diplomats. For more info, visit www.census.abs.gov.au

Q: What is the agreement whereby the Australian Government cannot question (foreign) diplomats?

Missions are considered foreign soil, so Diplomats are exempt from completing the Census.

Q: Will the ABS continue to need field staff with the transition to a digital first Census?

We have employed over 38,000 Census field staff for the 2016 Census. Field staff continue to deliver paper forms in areas where there needed most and will be available to follow up households who do not submit a response to ensure that everyone can take part.

Q: Is Norfolk Island included in the Australian Census?

For the first time, Norfolk Island will be included in the Australian Census. For more info, check out http://help.census.abs.gov.au/help/information/norfolk

Q: Why fill in a Census form again - I provided this information five years ago?

We need to get an accurate and up-to-date snapshot of Australia every five years, to see what has changed over time and help plan for our future. For more info, check out https://www.youtube.com/watch?v=SpealMkXous

Q: How are the topics decided?

The topics in the 2016 Census are the same as in 2006 and 2011 Censuses. These topics are decided by the Australian Government. The ABS undertook public consultation following the 2011 Census, there was overwhelming support for the continuation of these topics. For more info, go to http://www.abs.gov.au/ausstats/abs@.nsf/mf/2008.0

Q: Are there new questions in the 2016 Census?

There are no new topics in the 2016 Census. Find out more, at http://www.abs.gov.au/ausstats/abs@.nsf/mf/2008.0

Q: Why does the Census ask X question?

For info on why each question is asked, visit our website. http://help.census.abs.gov.au/about/what/why

Q: How will the 2016 Census be different to that of past Censuses?

In 2016, we expect 65 per cent of households will complete the Census online. Paper forms will still be available. These changes are expected to save over \$100 million dollars. Find out more, at http://help.census.abs.gov.au/about/complete

Q: Why is there a question on the Census form asking people where they are on Census night?

In Australia, people are counted where they are on Census night. This method ensures people are not missed or counted twice. Find out more, at http://help.census.abs.gov.au/about/what/why

Q: Why don't you just ask people where they usually live?

This is to make sure that anyone who is travelling or living away from their usual address is included in the Census count where they usually live, to help plan for things like community services, transport and other important services. Find out more, at http://help.census.abs.gov.au/about/what/why

Q: How will people know about the Census and what to do?

We're running a national advertising campaign and other media activities to tell everyone about the Census, what they need to do and when. We're also writing to every household and delivering paper forms in some llocations to ensure that everyone can take part. http://help.census.abs.gov.au/news/campaign

Q: Why does the ABS spend money on advertising the Census?

It's important that everyone is aware of the Census, when it is and how to participate, to ensure that everyone can take part and Census data is accurate. http://help.census.abs.gov.au/news/campaign

Census logistics

Q: How many households are Census instruction letters and forms distributed to?

Approximately 8 million households will receive a letter with instructions on how to complete the Census online. In some locations, approximately 2 million households will receive paper form upfront. http://help.census.abs.gov.au/about/complete

Q: How are Census forms printed?

All Census forms are printed on sustainable, fully recyclable Australian made paper.

Q: How does the ABS gain access to secure apartment buildings to deliver and collect Census forms?

We contact building managers, body corporate managers or similar to arrange for access to secure apartment buildings.

http://help.census.abs.gov.au/sites/default/files/Census Public/pdf/B SAB WEB.pdf

Q: Do ABS field staff have the legal right to access a building that contains apartments, flats, or home units in order to deliver and collect Census forms to each household within that building?

Yes, we need to make sure everyone completes the Census, even those people who live in a secure apartment building or gated community.

http://help.census.abs.gov.au/sites/default/files/Census Public/pdf/B SAB WEB.pdf

Q: What will the ABS do if Census staff are denied access to the residences in an apartment building?

We aim to work with building managers to ensure we count all households, and the need to enforce penalties is rare.

http://help.census.abs.gov.au/sites/default/files/Census Public/pdf/B SAB WEB.pdf

Q: How are holiday homes/second residences captured in the Census?

Census Field Officers are familiar with their local areas and ensure holiday homes and second residences are accounted for in the Census.

Q: How will Census forms be collected?

Paper forms should be retuned in the blue Reply Paid envelope provided. Census Field Officers will visit households that have not returned a completed Census form, from late-August. http://help.census.abs.gov.au/about/complete

Q: What happens to Census forms once they are collected?

Paper forms and the information from online forms will be stored in the Census Data Capture Centre in Melbourne. Learn more about the Census at help.census.abs.gov.au/help/popquestions.

Q: What happens if forms get lost or stolen?

The ABS takes this very seriously. To minimise this risk we suggest that you complete your Census online. If you are submitting a paper Census form, please return it in the provided Reply Paid envelope to ensure the security of your information. Learn more about how we uphold the privacy and security of the information we collect. https://www.youtube.com/watch?v=8WpxVS6Alt0

Privacy/security

Q: Is the Census secure and private?

Protecting your privacy and confidentiality is critical to the ABS. See the Census Privacy Statement for more information. http://help.census.abs.gov.au/privacy

The information you provide via the online Census form is protected by strong encryption technology, which is similar to those used for online banking and payments. Your information cannot be accessed by anyone outside the ABS. See the Census Privacy Statement for more information. http://help.census.abs.gov.au/privacy

Q: What are the penalties for breaching security under the *Census and Statistics Act*? It is an offence for any past or present ABS officer to divulge, either directly or indirectly, any confidential information collected under the Act. The penalty for this offence is a fine of up to \$21,600 or imprisonment for up to two years, or both. http://help.census.abs.gov.au/about/privacy

Q: How can the ABS ensure the protection of information if Field Officers use their own devices to collect data?

We're using Mobile Application Management software to protect information stored in the Field Staff mobile application. Before Field Staff can download the Field Staff mobile application, the Mobile Application Management software ensures that security requirements for the software are met.

Q: What information is collected and stored in the field staff application?

The Field Staff mobile application in used to collect operational workload information such as the address of dwellings they visit, any hazards they encounter and the structure of the dwelling. The barcode of the Census form or Census letter they leave at the dwelling is also scanned as a record of the material left for that dwelling. The Field Staff mobile application is not used to collect responses to Census questions or other personal information.

The Field Staff mobile application has undergone extensive independent security testing.

Q: Do the Field Officers read the forms?

If people choose to complete a paper form they will be provided a Reply Paid envelope to mail their form back—so Field Officers will not be able to read the completed forms. Find out how we protect the privacy and security of your information. http://help.census.abs.gov.au/about/privacy

Q: Will the government link up and compare this information with other agencies, like Centrelink, Medicare, or the Australian Tax Office?

No, by law other organisations, including government departments and direct marketing companies, cannot access any personal information you provide on your Census form. https://www.youtube.com/watch?v=8WpxVS6Alt0

Q: Why do you need to provide your name, it's never been collected before?

Names have been collected in the Census for over 100 years. The ABS has found that having names included on the form results in a higher quality of data. It assists householders completing the form to report the relevant information for each person.

Having names on the form also helps the ABS to identify if any people were missed during the Census, or accidently counted twice. It can also assist in improving the quality of data we produce on families, especially where complex relationships, like blended families, exist. International studies have demonstrated that an anonymous Census results in poor quality data.

Q: What procedure do you commit to following in the case of a data breach?

We take privacy and security very seriously. In the highly unlikely event of a privacy breach, we would work with the Australian Information Commissioner to improve security and ensure your data is kept safe. For more info check out https://www.youtube.com/watch?v=8WpxVS6Alt0.

Q: Will the ABS ever sell a person's Census details to anyone?

No. By law, we can never share your private information with anyone. For more info, check out https://www.youtube.com/watch?v=8WpxVS6Alt0.

Q: How can I tell if the Field Officer is genuine?

All Census Field Officers will wear a signed ID card and a highly visible yellow satchel. If someone claims they are from the ABS but aren't able to provide you with an ID card, you should contact the Police.

Name and address retention

Q: This is the first time you have asked for names and address, why should I provide them now?

Names and addresses have been collected in the Census for over 100 years. The collection of names and addresses is a critical part of ensuring the quality and value of the Census. Find out how we protect the privacy and security of your information. For more information, go to http://help.census.abs.gov.au/about/privacy#backtotop

Q: This is the first year names and addresses have been compulsory, why should I provide them now?

Names and addresses have been collected in every modern Census, and have always been compulsory. The only optional question on the Census is the Religion question.

Q. How was the decision made to retain names and addresses?

Keeping names and addresses for a short time will help us create richer data sets, with very low risk to privacy, confidentiality and security. To learn more see census.abs.gov.au.

Q: Why is the ABS now retaining addresses?

Keeping addresses for a short time to combine with other survey data helps to provide a richer understanding of the way Australian live. To learn more see census.abs.gov.au.

Q: How will the ABS safeguard names and addresses?

As always, keeping your information private is our top priority. Names and addresses will be stored separately and securely with the strongest level of encryption. To learn more check out https://www.youtube.com/watch?v=8WpxVS6Alt0.

Q: What is meant when ABS says data points will be stored separately for security purposes?

This means that we separate names, addresses and other personal data, so no individual is able to access both someone's identifiable information and their Census responses. For more on privacy and security, see https://www.youtube.com/watch?v=8WpxVS6Alt0.

Q: Is Census data stored safely?

Absolutely. The ABS stores all of its data in highly secure environments, protected by layers of physical and information technology security. To learn more check out https://www.youtube.com/watch?v=8WpxVS6Alt0.

Q: Is this separate to the 99 year retention of personal details?

Yes, this is a separate process. Since 2001, Australians have had the opportunity to opt-in to having their actual census form contents securely stored at the National Archives for 99 years as part of the Census time capsule. If you don't opt in to this, your personal Census data will never be released.

Digital-first Census (general questions)

Q: Why is the digital-first approach being undertaken?

The digital-first approach will be faster, more efficient and easier for the public to complete. It will also save tax payers more than \$100 million! For more info, check out help.census.abs.gov.au/about/complete.

Q: What is the expected online participation rate for the 2016 Census?

We expect about two-thirds of Australians to complete their Censuses online in 2016, doubling the figure from the last Census in 2011.

Q: What about all the people who don't have access to internet?

Paper forms will still be available. To order one, simple call 1300 820 275 and quote the Login from your Census letter. Some areas that are expected to require paper forms will receive a paper form, with the option to complete it online.

Q: What is the ABS address register?

The National Address Register is a central source of residential and commercial addresses in Australia. We will use this register to send you your Census letter with online form login.

Q: What is the cost of data for completing the Census online?

The Census form is very small so that it can load quickly. It uses about 250kb which is equivalent to a 2 second YouTube video or less than one cent of data usage. For more info on the Census check out help.census.abs.gov.au/help/popquestions.

Q: Can the system cope if more people than expected choose to complete the Census online?

The online form can withstand very high levels of traffic, even if more people than expected use the online form on Census night. For more info on the digital Census check out help.census.abs.gov.au/about/complete.

Q: How long does it take to complete the Census online?

Most households can complete their online form in 30 minutes or less. For more info on the digital Census check out help.census.abs.gov.au/about/complete.

Q: Will the ABS use email to send links to the online Census or website?

No, we won't send you any emails telling you to complete the Census or with links to the Census form. If you receive an email like this, please delete it and watch out for your letter in the mail instead.

Q: Why is your Census computer system designed and built by IBM?

The ABS has again partnered with IBM to design a solution that can meet the scale, speed, usability, reliability and security that the 2016 online form requires.

Q: What is encryption and how does it work?

Encryption is the translation of data into a secret code over the Internet so only authorised people can read it. Learn more about data security at https://www.youtube.com/watch?v=8WpxVS6Alt0.

General help completing the Census

Q: When will the Census letters/forms be delivered?

Look out for your letter from late July to 9 August 2016. For more info check out https://www.youtube.com/watch?v=xGoSPsICvF0

We use the address register to mail your Census letter, this register only includes addresses, not names.

Q. I received the Census letter but it's the wrong address. Can I fill out this form if it's for the wrong address or do I have to call up to order a new one?

Sorry for the mix up. You will need to request a new Login for the correct address by calling the Census Inquiry Service. If possible, please mark the letter you received "RTS - mail wrongly delivered", and post it back to us. Thank you.

Q: I received two Census letters, one with the correct address and one not, what should I do?

Sorry for the mix up. Please use the Login from the correctly addressed letter. If possible, please mark the incorrectly addressed letter you received, "RTS - mail wrongly delivered", and post it back to us. Thank you.

Q: Why did I receive a paper form instead of a letter like everyone else?

You can still complete it the form online though, just use the Census Login from the front of the paper form.

Q: I don't understand my Census letter

We encourage you to ask a friend, family member or someone you trust to help you. For more help, check out our Popular Questions at help.census.abs.gov.au/help/popquestions.

Q: I've lost my password/letter

https://www.census.abs.gov.au/eCensusWeb/contact.jsp

Q: Can I order a paper form without the Login in the Census Instruction Letter?

You will need the 12-digit Login from your household letter to order a paper form, so please wait for your letter to arrive.
